LIST OF PUBLICATIONS

1. Dynamic theory of phase transition in hydrogen-bonded ferroelectric crystals : transverse susceptibility.
S.Ganguli, D.K.Nath and B.K.Chaudhuri
Current trends in lattice dynamics, Ed. K.R.Rao, (Indian Physics Association), (1979).

2. Order-disorder type of transition in ferroelectric $NH_4H(ClCH_2COO)_2$ crystal
D.K.Nath, S.Ganguli and B.K.Chaudhuri
J. Phys. C: Solid State Physics 12, 381 (1979)

3. Calculation of transverse and longitudinal electrical susceptibilities in ADP-type crystals
B.K.Chaudhuri, S.Ganguli and D.K.Nath
Ind. J. Pure and Appl. Phys. 18, 573 (1980).

4. Green's function theory of phase transition in hydrogen-bonded ferroelectric crystals with pseudo-spin-lattice coupled mode model
S.Ganguli, D.K.Nath and B.K.Chaudhuri
Phys. Rev. B 21, 2937 (1980).

5. On the transverse electrical susceptibilities of KDP type crystals
B.K.Chaudhuri, S.Ganguli and D.K.Nath
Solid State Commun. 33, 775 (1980).

6. Green's function theory of phase transitions in the hydrogen bonded $PbHPO_4$-type ferroelectrics with pseudo-spin model
B.K.Chaudhuri, S.Ganguli and D.K.Nath
Phys. Rev. B 23, 2308 (1981).

7. Green's function theory of phase transitions in H-bonded anti-ferroelectric $NH_4H_2PO_4$, $ND_4D_2PO_4$ and $NH_4H_2AsO_4$ crystals with a pseudo-spin model: A unified model for the transverse electrical susceptibilities of ADP and KDP-type crystals
S.Banerjee, D.K.Nath and B.K.Chaudhuri
Phys. Rev. B 24, 6469 (1981).

8. Phenomenological theory of the isostructural phase transition in H-bonded $SnCl_2(H_2O)_2$ and $SnCl_2(H_2O)_x(D_2O)_{2-x}$ with pseudo-spin model
S.Banerjee, D.K.Nath and B.K.Chaudhuri
Phys. Rev. B 24, No. 9, Nov. (1981).

9. Study of ferroelectric phase transitions in H-bonded crystals with pseudo-spin-lattice-coupled-model model - A unified theory
B.K.Chaudhuri, D.K.Nath and S.Banerjee
Ferroelectrics 39, 1075 (1981).

10. Phenomenological explanation of the anomalous dielectric behavior of alums with pseudo-spin-lattice-coupled-mode model

K. R. Chaudhury, D. K. Nath, S. Banerjee and B. K. Chaudhuri

Phys. Rev. B 26, No. 3, Aug. (1982).
