CHAPTER 1			
General Introduction	...	...	1-51
1.1.	What is liquid crystal...	...	2
1.2.	Classification of liquid crystals	...	3
1.3.	Chemical constitution of mesomorphic compounds...	...	13
1.4.	Theories of nematic liquid crystals....	...	19
	Phase transitions...	...	22
	Orientational distribution functions...	...	27
	Orientational order parameters	...	28
	McMillan's theory of Smectic A	...	33
1.5.(a)	Alignment of nematic mesophases	...	35
1.5.(b)	Alignment of Smectic phases	...	37
1.6.	Texture analysis by polarising microscope...	...	38
1.7.	Motivation and scope of the work	...	42
	References...	...	44
CHAPTER 2			
Introduction to X-ray work	...	...	52-68
1.1.	Sample used...	...	53
1.2.	Experimental procedure...	...	54
	Recrystallization...	...	54
	Polarizing microscopic study for identification of different phases and transition temperatures...	...	55

Page

Apparatus... ... 56

1.3. Alignment of samples... ... 61

1.4. Conversion of optical density into X-ray intensity... ... 62

References... ... 68

CHAPTER 3

Theoretical Background for X-ray work... ... 69-85

Average Intermolecular distance, Apparent length of the molecules and layer thickness (in case of smectics)... ... 74

Orientational distribution function and order parameter... ... 76

Pseudopotential... ... 81

References... ... 84

CHAPTER 4

Experimental procedure and data Analysis... ... 86-109

References... ... 102

Computer programme... ... 103

CHAPTER 5

X-ray diffraction studies on unoriented mesophases of (-)-2-Methylbutyl-p-n-(p-methoxy benzylidene) Amino) Valerophenone ... 110-137

1. Introduction... ... 111

2. Experimental methods... ... 112

Page

3. Experimental results and discussions.... 112

Tables.. ... 124

References... ... 137

CHAPTER 6

X-ray diffraction studies on ordered sample of 4-Methoxy 4'-n-Butylbenzylidene-Aniline (MBBA in short) at room temperature... ... 138-155

1. Introduction... ... 139

2. Results and discussions... ... 140

Tables... ... 150

References... ... 155

CHAPTER 7

X-ray diffraction studies of 4-Cyanophenyl 4'-n-Heptylbenzoate in the nematic phase (CPHB in short) in magnetic field.... ... 156-193

1. Introduction... ... 157

2. Results and discussions... ... 158

Tables... ... 170

References... ... 193

CHAPTER 8

X-ray diffraction studies on the nematic phase of 4'-pentyloxy-4-cyanophenyl (5OCB in short) in magnetic field... ... 194-222

1. Introduction... ... 195

Page

2. Results and discussions... ... 196

Tables... ... 204

References... ... 222

CHAPTER 9

X-ray diffraction studies on the mesophases of 4'-Octyloxy-4-cyanobiphenyl(8OCB in short) in magnetic field... ... 223-254

1. Introduction... ... 224

2. Results and discussions... ... 225

Tables... ... 233

References... ... 254

CHAPTER 10

X-ray diffraction studies on Smectic phase of 4'-(n-(p-Pentyloxy Carbonyloxy-Benzylidene) Amino) Valerophenone... ... 255-278

1. Introduction... ... 256

2. Experimental Results and discussions... 257

Tables... ... 268

References... ... 278

CHAPTER 11

X-ray diffraction studies on the mesophases of n-p-Cyanobenzylidene p-Octyloxy-Aniline (C8OOA in short) in magnetic field... ... 279-322

			Page
1.	Introduction...	...	280
2.	Experimental results and discussions...		281
	Tables..	...	295
	References...	...	322

CHAPTER 12

The order parameter of Dye molecules as Guest in nematic liquid crystalline host in presence of electric field...		...	323-344
1.	Introduction and outlines of theoretical background....	...	324
2.	Experimental...	...	332
3.	Results and discussions...	...	338
	Tables...	...	341
	References...	...	344

CHAPTER 13

Summary and conclusion...		...	345-352
References...		...	352
List of Publications...	...	353-354	353-354
