

ACKNOWLEDGEMENTS

I express my sincere gratitude to Professor (Dr.) B.Dasgupta, M.Sc., Ph.D. (London), Principal, Darjeeling Government College, Darjeeling, West Bengal, India for suggesting this problem of the thesis. I humbly acknowledge his untiring guidance, supervision and skilful direction throughout the course of investigation.

I wish to tend my sincere thanks to Professor (Dr.) S.K.Dasgupta, former Head, Post-Graduate Zoology Department, Darjeeling Government College, Darjeeling, at present Head of the Department of Zoology, Presidency College, Calcutta, West Bengal, India for his kind encouragement.

Thanks are gratefully extended to my learned colleagues of Post-Graduate Zoology Department where the major part of this work is accomplished.

Thanks are due to Dr.A.K.Mandal, Superintending Zoologist, Zoological Survey of India, Calcutta, Dr. B.C.Nandi, Lecturer, Zoology Department, Hooghly Mohasin College, Dr. (Mrs.) D.Pradhan, Lecturer, St. Joseph's College, Darjeeling, Dr. M.Banerjee, Lecturer, Zoology Department, Burdwan University, Shri Sukdeb Sinha, Research Officer, National Institute of Communicable diseases, Delhi, and Shri Sayantan Bandyopadhyaya, Research Scholar, Zoological Survey of India, Calcutta.
