

## PREFACE

The work embodied in this thesis entitled "Studies on the role of Selenium in experimental diabetes" is submitted for the degree of Doctor of Philosophy (Medicine) of the University of North Bengal.

I would like to express my heart-felt gratitude to my revered guide and teacher Prof. P. K. Mitra, Ph D. (Cal. Univ.), Ph D. (N. B. Univ.), Ph D. (N. B. Univ.), Department of Biochemistry, North Bengal Medical College, University of North Bengal, for his constant guidance and invaluable suggestions during the course of this investigation.

My grateful thanks are due to Prof. S. P. Paul, M.B.B.S., Ph D., Department of Pharmaceutical Technology, Jadavpur University, for providing active help in performing part of the work under his guidance.

To a great extent I owe my gratitude to Prof. S. C. Santra, Ph D., P.R.S., Head of the Department of Environmental Science, Kalyani University, for his guidance during writing this thesis.

I also take the opportunity to thank Dr. S. Banerjee, M.D. for his invaluable suggestions.

Dr. Jayanta Ranjan Mukherjee
