

CONTENTS

	Page
1.0 Introduction	2
1.1 Etiological classification of Diabetes	2
1.2 Epidemiology	3
1.3 Pathogenesis	4
1.3.1 Pathogenesis of type 1 D.M.	4
1.3.2 Pathogenesis of type 2 D.M.	4
1.3.3 MODY	6
1.4 Clinical features	6
1.5 Diagnosis	7
1.6 Management	7
1.6.1 Nutrition	8
1.6.2 Indications for intensive management	9
1.6.3 Pharmacological	9
1.7 Complications.	10
1.8 Selenium and its role in human metabolism	10
2.0 Review of Literature	14
2.1 General Aspects	14
2.2 Role of Selenium on Diabetes	32
3.0 Aims and objectives	45
3.1 Plan of work	47

	Page
4.0 Materials and Methods	49
4.1.1 Experimental animals	49
4.1.2 Mode of treatment	49
4.1.3 Design of Experiments	49
4.2 Carbohydrate metabolism	49
4.2.1 Estimation of Blood sugar	49
4.2.2 Estimation of Liver glucose-6-phosphatase	49
4.2.3 Estimation of Liver glucose-6-phosphate dehydrogenase	51
4.2.4 Estimation of Liver pyruvic acid	52
4.2.5 Estimation of Liver glycogen	53
4.2.6 Estimation of Lactic acid	54
4.2.6.1 Blood	54
4.2.6.2 Tissue	55
4.2.7 Estimation of Liver succinic dehydrogenase	56
4.2.8 Estimation of Serum lactate dehydrogenase	57
4.3 Lipid metabolism	58
4.3.1 Estimation of Blood Cholesterol	58
4.3.2 Estimation of Serum LDL, VLDL & HDL	58
4.3.3 Estimation of Serum and Liver triglyceride	58
4.3.4 Estimation of Liver HMG CoA reductase	60

	Page
4.4 Detoxicating microsomal enzymes	60
4.4.1 Estimation of Glutathione in Liver and Blood	60
4.4.2 Estimation of Glutathione reductase in Liver	61
4.4.3 Estimation of Glutathione-s-transferase in Liver	62
4.4.4 Estimation of hepatic UDP-glucoronyl transferase activity	65
4.5 Peroxidation	65
4.5.1 Estimation of Lipid peroxidation in Liver, Brain and Kidney	65
4.5.2 Estimation of Catalase in Liver	67
4.5.3 Estimation of Cyt P-450 mono oxygenase in Liver	69
4.6 Miscellaneous	71
4.6.1 Estimation of Blood fibrinogen	71
4.6.2 Estimation of Serum Mono amine oxidase	73
4.6.3 Estimation of Acetyl choline Esterase in Brain	74
4.6.4 Estimation of Blood Urea	75
4.6.5 Estimation of Protein	75
4.6.6 Estimation of Selenium in Pancreas, Brain, Liver, Blood	75
4.6.7 Vanadium	75

	Page
4.7 Chromosome preparation and G banding technique from mice	75
4.8 Histopathology of Pancreas	77
5.0 Results	79
5.1 Carbohydrate Metabolism	79
5.1.1 Experiments related to Blood Sugar	79
5.1.2 Experiment related to Glucose-6- phosphatase in Liver	87
5.1.3 Experiment related to Glucose-6-phosphate dehydrogenase in Liver	89
5.1.4 Experiment related to Pyruvic acid in Liver	91
5.1.5 Experiment related to Glycogen in Liver	93
5.1.6 Experiments related to Lactic Acid	95
5.1.6.1 Blood	95
5.1.6.2 Tissue	97
5.1.7 Experiment related to Succinic dehydrogenase in Liver	103
5.1.8 Experiment related to Lactate dehydrogenase in Serum	105
5.2 Lipid Metabolism	107
5.2.1 Experiment related to Blood Cholesterol	107
5.2.2 Experiments related to Serum Lipoproteins	109
5.2.2.1 LDL	109
5.2.2.2 VLDL	111
5.2.2.3 HDL	113

	Page
5.2.3 Experiments related to Triglyceride	115
5.2.3.1 Serum	115
5.2.3.2 Liver	117
5.2.3.3 Vanadium and Selenium treatment	119
5.2.4 Experiment related to HMG-CoA reductase activity in Liver	121
5.3 Detoxicating microsomal enzymes	123
5.3.1 Experiments related to Glutathione	123
5.3.1.1 Liver	123
5.3.1.2 Blood	125
5.3.2 Experiment related to Glutathione reductase in Liver	127
5.3.3 Experiment related to Glutathione-s-transferase in Liver	129
5.3.4 Experiment related to hepatic UDP-Glucoronyl transferase activity	131
5.4 Peroxidation	133
5.4.1 Experiments related to Lipid peroxidation	133
5.4.1.1 Liver	133
5.4.1.2 Brain	135
5.4.1.3 Kidney	137
5.4.1.4 Vanadium and Selenium treatment	139
5.4.2 Experiment related to Catalase in Liver	141
5.4.3 Experiment related to Cyt P-450 monooxygenase in Liver	143

	Page
5.5 Miscellaneous	145
5.5.1 Experiment related to Fibrinogen in Blood	145
5.5.2 Experiment related to Mono amine oxidase in Serum	147
5.5.3 Experiment related to Acetyl Choline esterase in Brain	149
5.5.4 Experiment related to Urea in Blood	151
5.5.5 Experiments related to Selenium level in Pancreas, Brain, Liver and Blood	153
5.6 Chromosome preparation	155
5.7 Histopathology of Pancreas	156
6.0 Discussion	159
7.0 Summary	180
8.0 Bibliography	183
