

# LEGEND OF TABLES

---

	Page
Table 1 : Blood Sugar changes following Streptozotocin injection .....	79
Table 2 : Blood sugar changes induced by Selenium treatment .....	81
Table 3 : Changes of blood sugar on Selenium and Vanadium feeding .....	83
Table 4 : Change of blood sugar on different doses of Se feeding in mice .....	85
Table 5 : Changes of Glucose-6-phosphatase in liver on Selenium treatment .....	87
Table 6 : Changes of Glucose-6-phosphate dehydrogenase in liver on Selenium treatment .....	89
Table 7 : Changes of Pyruvic acid in liver on Selenium treatment .....	91
Table 8 : Changes of Glycogen in liver on Selenium treatment .....	93
Table 9 : Changes of Lactic acid in blood on Selenium treatment .....	95
Table 10 : Changes of Lactic acid in heart on Selenium treatment .....	97
Table 11 : Changes of Lactic acid in muscle on Selenium treatment .....	99
Table 12 : Changes of Lactic acid in liver on Selenium treatment .....	101
Table 13 : Changes of Succinic dehydrogenase in liver on Selenium treatment .....	103
Table 14 : Changes of lactate dehydrogenase in serum on Selenium treatment .....	105

	Page
Table 15 : Changes of blood cholesterol on Selenium treatment .....	107
Table 16 : Changes of Serum LDL level on Selenium treatment .....	109
Table 17 : Changes of Serum VLDL level on selenium treatment .....	111
Table 18 : Changes of Serum HDL level on Selenium treatment .....	113
Table 19 : Changes of Serum triglyceride level on Selenium treatment .....	115
Table 20 : Changes of liver triglyceride level on Selenium treatment .....	117
Table 21 : Changes of serum triglyceride level on Vanadium and Selenium feeding .....	119
Table 22 : Changes of HMG-CoA reductase activity in liver on Selenium treatment .....	121
Table 23 : Changes of Glutathione level in liver on Selenium treatment .....	123
Table 24 : Changes of Glutathione level in blood on Selenium treatment .....	125
Table 25 : Changes of Glutathione reductase level in liver on Selenium treatment .....	127
Table 26 : Changes of Glutathione-s-transferase level in liver on Selenium treatment .....	129
Table 27 : Changes of hepatic UDP-Glucoronyl transferase activity on Selenium treatment .....	131

	Page
Table 28 : Changes of level of lipid peroxidation in liver on Selenium treatment .....	133
Table 29 : Changes of level of lipid peroxidation in brain on Selenium treatment .....	135
Table 30 : Changes of level of lipid peroxidation in kidney on Selenium treatment .....	137
Table 31 : Changes of liver lipid peroxidation level on Vanadium & Selenium feeding .....	139
Table 32 : Changes of catalase level in liver on Selenium treatment .....	141
Table 33 : Changes of Cyt P-450 level in liver on Selenium treatment .....	143
Table 34 : Changes of Fibrinogen level in blood on Selenium treatment .....	145
Table 35 : Changes of Monoamine oxidase level in serum on Selenium treatment .....	147
Table 36 : Changes of Acetyl choline esterase level in brain on Selenium treatment .....	149
Table 37 : Changes of Urea level in blood on Selenium treatment .....	151
Table 38 : Changes of level of Selenium in different tissues and blood on induction of diabetes .....	153

# LEGEND OF FIGURES

---

	Page
Figure 1 : Blood Sugar changes following Streptozotocin injection .....	80
Figure 2 : Blood sugar changes induced by Selenium treatment .....	82
Figure 3 : Changes of blood sugar on Selenium and Vanadium feeding .....	84
Figure 4 : Change of blood sugar on different doses of Se feeding in mice .....	86
Figure 5 : Changes of Glucose-6-phosphatase in liver on Selenium treatment .....	88
Figure 6 : Changes of Glucose-6-phosphate dehydrogenase in liver on Selenium treatment .....	90
Figure 7 : Changes of Pyruvic acid in liver on Selenium treatment .....	92
Figure 8 : Changes of Glycogen in liver on Selenium treatment .....	94
Figure 9 : Changes of Lactic acid in blood on Selenium treatment .....	96
Figure 10 : Changes of Lactic acid in heart on Selenium treatment .....	98
Figure 11 : Changes of Lactic acid in muscle on Selenium treatment .....	100
Figure 12 : Changes of Lactic acid in liver on Selenium treatment .....	102
Figure 13 : Changes of Succinic dehydrogenase in liver on Selenium treatment .....	104

	Page
Figure 14 : Changes of lactate dehydrogenase in serum on Selenium treatment .....	106
Figure 15 : Changes of blood cholesterol on Selenium treatment .....	108
Figure 16 : Changes of Serum LDL level on Selenium treatment .....	110
Figure 17 : Changes of Serum VLDL level on selenium treatment .....	112
Figure 18 : Changes of Serum HDL level on Selenium treatment .....	114
Figure 19 : Changes of Serum triglyceride level on Selenium treatment .....	116
Figure 20 : Changes of liver triglyceride level on Selenium treatment .....	118
Figure 21 : Changes of serum triglyceride level on Vanadium and Selenium feeding .....	120
Figure 22 : Changes of HMG-CoA reductase activity in liver on Selenium treatment .....	122
Figure 23 : Changes of Glutathione level in liver on Selenium treatment .....	124
Figure 24 : Changes of Glutathione level in blood on Selenium treatment .....	126
Figure 25 : Changes of Glutathione reductase level in liver on Selenium treatment .....	128
Figure 26 : Changes of Glutathione-s-transferase level in liver on Selenium treatment .....	130

	Page
Figure 27 : Changes of hepatic UDP-Glucoronyl transferase activity on Selenium treatment .....	132
Figure 28 : Changes of level of lipid peroxidation in liver on Selenium treatment .....	134
Figure 29 : Changes of level of lipid peroxidation in brain on Selenium treatment .....	136
Figure 30 : Changes of level of lipid peroxidation in kidney on Selenium treatment .....	138
Figure 31 : Changes of liver lipid peroxidation level on Vanadium & Selenium feeding .....	140
Figure 32 : Changes of catalase level in liver on Selenium treatment .....	142
Figure 33 : Changes of Cyt P-450 level in liver on Selenium treatment .....	144
Figure 34 : Changes of Fibrinogen level in blood on Selenium treatment .....	146
Figure 35 : Changes of Monoamine oxidase level in serum on Selenium treatment .....	148
Figure 36 : Changes of Acetyl choline esterase level in brain on Selenium treatment .....	150
Figure 37 : Changes of Urea level in blood on Selenium treatment .....	152
Figure 38 : Changes of level of Selenium in different tissues and blood on induction of diabetes .....	154
