

Preface

Education is the backbone of any society. Unless majority of the womenfolk are educated, progress and development is unthinkable in contemporary society. Though few scholars have reported about educational developments in Sikkim, yet most of them have not made any attempt to present an analytical and comparative study of women's educational status.

Present research is an attempt to assess the impact of education among the women of Sikkim. It is a detailed account of the educational growth and constraints. The issues related with women's educational status, attitude towards education, constraints of education and measures for educational advancement of Sikkimese women are empirically tested on the basis of information gathered from four places of West district of Sikkim.

I record my indebtedness to my research guide, Prof. Sekh Rahim Mondal, Prof. of Sociology and Anthropology, Centre for Himalayan Studies for his counsel, guidance and valuable suggestions to this endeavour.

I owe deep gratitude to all the faculty members, Centre for Himalayan Studies for their support and help.

I am grateful to Mr. C.P.Sharma, Principal, Government Secondary School, Bariakhop, West Sikkim for having instigated me to complete this work and extended help in many other ways. I am obliged to my colleagues of Government Secondary School, Bariakhop, for their co-operation.

I convey my deepest sense of gratitude to Dr. D.S. Bhattacharya, former Head of the Department, Education, Sikkim Government College, Tadong and Mrs. V.
