

Acknowledgements

In course of this study I had the opportunity to meet and come across a lot of well-wishers who have in some way or other contributed to my enjoyable journey. I am highly privileged by you all.

First and foremost, I would like to express my heartfelt indebtedness towards my teacher, Dr P.K. Sarkar, Professor of Botany, University of North Bengal for his esteemed supervision, constant encouragement, valuable suggestions and unfailing help throughout. His laudable guidance made the planning, execution and completion of this work. His utmost punctuality and supervision inspired me more than ever. I am truly blessed to have him as my supervisor. I take this opportunity to express my sincere thanks to his family for their affection, support, understanding and kind cooperation althrough.

I express my profound gratitude to my co-supervisor Dr Ranadhir Chakraborty, Reader in Biotechnology, University of North Bengal for rendering me his advice, inspirations and help.

I am indebted to the Heads of the Department of Botany, University of North Bengal for extending a prompt support in different official matters, whenever needed. I wish to thank all the faculty members and nonteaching staff of the Department of Botany for their kind cooperation and help they rendered me during my work.

I am grateful to Dr M.J. Robert Nout, Associate Professor of Agrotechnology and Food Science, Wageningen Universtiy, The Netherlands for his critical suggestions on my work and kindly providing the softwares for identification of lactic acid bacteria (IBIS) and yeasts. I wish to express my sincere thanks to Dr Jayati Bhowal, Indian Association for the Cultivation of Science, Kolkata for sharing her knowledge and experience in learning the hands-on-experience on SDS-PAGE.

My thanks are due to my lab mates for rendering me the necessary help and assistance with their selfless devotions. In this regard, I thank Dr Mousumi Banerjee, Ms Jayati Saha, Ms Mousumi Rakshit, and with special mention to Mr Arindam Roy who has been the most helpful being ever encountered during my research period constantly when and where I needed him. I was quite fortunate to have working time with such a nice colleague. I express my thanks to Mr Satin Singha, laboratory bearer for his cheerful cooperation and help in the laboratory.

I have always been enjoyed and benefited by supports and stimulating interactions with fellow research scholars Dr Upkar Rai, Mr Moazzam Ali, Mr Lakpa Tamang and others at Research Scholars' (Men) Hostel of the university. I collectively thank you all for your good wishes and kind help. Though countless names may have been missing here, they shall always remain in my heart for ever.

I gratefully acknowledge the financial support by grant, F.3-5/2002 (SAP-2) from the University Grant Commission, New Delhi, India, which enabled me in carrying out this work.

To my parents, I need not make any formal statement of debt. They patiently have borne all my inconveniences from time to time and encouraged me constantly in carrying out my work. My formal statements will be too few compared to their contributions and blessings in my journey, now and more than ever. The moral support and positive inspirations rendered by my brothers and sisters are also highly acknowledged. I express my sincere thanks and regards to you all.
