

Preface

The thesis contains the results of the work done during the last eight years in the Department of Computer Science and Application, University of North Bengal. A part of the results has already been published. I wish to record my gratitude to Dr R K Samanta, Professor, Department of Computer Science & Applications, University of North Bengal, for his constant guidance and inspiration. My regards to my parents for their moral supports. I would like to thank my wife, Susmita, who always encouraged me to spend odd hours with my research work. Thanks to Dr A K Saha, Department of Computer Science & Application, University of North Bengal, for his various helps and providing me the enthusiasm to begin. I am thankful to my friend Dr Indrajit Ghosh, ES Laboratory, Department of Computer Science & Applications, University of North Bengal for his continuing collaborative efforts in the design and validation of the case-based system. My thanks also to Sri Dilip Roy Chowdhury for helping in documentation of the thesis. Thanks to Dr M. Chatterjee (North Bengal Medical College and Hospital), Dr S. S. Debnath (CMO, PM Hospital, Visva-Bharati) and Dr M. G. Goswami (consultant doctor, Siliguri), for their expert advice during this work. Their massive assistance in knowledge formalization, design, implementation and analysis of the final validation of the case-based system enriched the thesis. My thankful regards to all teachers and staff of Department of Computer Science & Application, University of North Bengal, for their inspirations and encouragement and all officials of University of North Bengal for their support and instant services rendered to me during my stay at the campus.
