

## ACKNOWLEDGEMENT

The present dissertation embodies the results of the studies carried out by me at the Department of Chemistry, University of North Bengal, Darjeeling 734 013, India.

I would like to express my sincere gratitude to Professor Bijan Das, Department of Chemistry, University of North Bengal, Darjeeling 734 013. Throughout the course of this project, I received patient guidance, valuable suggestions and continued inspiration from him. Without his loving care, this work could not be presented in the present form.

I am thankful to the University of North Bengal, Darjeeling and the Council of Scientific and Industrial Research (C.S.I.R.), New Delhi for providing me a fellowship. I am also grateful to the University authorities for providing the laboratory facilities. The assistance of the University Scientific and Instrumentation Centre, University of North Bengal is also gratefully acknowledged.

Sincere acknowledgement is being made to the Secretary and the Headmaster, Mekliganj Higher Secondary School, Mekliganj, Coochbehar for their help and cooperation during the progress of the work.

The inspiration and the encouragement that I received from my wife Abhirupa and my elder brother Mr. Subir Nandi during the course of this work are gratefully acknowledged.
