		PAGES
PREFACE	Scope and Object of the Work	1-3
CHAPTER I	Summary of the Works Done	4-7
CHAPTER II	Introduction	8-45
CHAPTER III	Experimental	46-52
CHAPTER IV	Effects of Concentration, Relative Permittivity, and Temperature on the Solution Behaviour of Sodium Carboxymethylcellulose As Probed by Electrical Conductivity	53-71
CHAPTER IV-A	Conductance of Sodium Carboxymethylcellulose in Acetonitrile-Water Mixed Solvent Media: An Analysis using the Scaling Theory Approach	72-80
CHAPTER V	Effect of Salts on the Conductivity of Sodium Carboxymethylcellulose in Acetonitrile-Water Mixed Solvent Media	81-92
CHAPTER VI	Intrinsic Viscosities of Sodium Carboxymethylcellulose in Acetonitrile-Water Mixed Solvent Media Using the Isoionic Dilution Method	93-109
CHAPTER VII	Viscosity of Sodium Carboxymethylcellulose in Acetonitrile-Water Mixed Solvent Media in Presence of NaCl	110-123
CHAPTER VIII	Apparent Molar Volumes of Sodium Carboxymethylcellulose in Acetonitrile-Water Mixed Solvent Media	124-136
CHAPTER IX	Concluding Remarks	137-138
PUBLICATIONS	List of Papers Published	139
