

ACKNOWLEDGEMENT

I am, it goes without saying, first and foremost immensely grateful to Dr. Sanjib Kumar Datta, Senior Lecturer, Department of Mathematics, University of North Bengal, who guided me throughout the preparation of my thesis and offered helpful suggestions leading towards its corrections and improvements. I am very thankful to the authors of various books and papers which have been consulted during the preparation of the thesis. Also my sincere thanks to all the faculty members of the Department of Mathematics, University of North Bengal and my fellow research scholars for the mental support and help they extended. Further I like to pay my regards to the management and all my colleagues of Siliguri Institute of Technology where I am serving as a Lecturer in Mathematics for being with me in the toughest of times. Finally, I acknowledge the constant encouragement and place my largest debt of gratitude to those well wishers including my family members without which this work would never been materialized. It is of course the author, needless to say, must accept the full responsibility for any errors and shortcomings which remain.

Dated: May 11, 2009.
Raja Rammohunpur,
Darjeeling.
