

ACKNOWLEDGEMENT

The present dissertation embodies the results of the studies carried out by me at the Department of Chemistry, University of North Bengal, Darjeeling 734 013, India during 2003-2009.

I express my deepest gratitude to Professor Bijan Das, Department of Chemistry, University of North Bengal, Darjeeling 734 013 for guiding me in my work. I would like to thank him also for all the encouragement and the stimulating discussions during the course of this study.

I am also grateful to the University authorities for providing the laboratory facilities. The assistance of the University Scientific and Instrumentation Centre, University of North Bengal is also gratefully acknowledged.

Sincere acknowledgement is being made to the Headmaster and the Staff, Raiganj Mohanbati High School (H.S.), Raiganj, Uttar Dinajpur for their help and cooperation during the progress of the work.

Finally, I warmly thank my parents A. R. Ghosh and N. Ghosh, wife Soma, sisters Manshi and Atabi, brothers Bikash and Pranta, and my son Shreyan for their patience and understanding.
