

Acknowledgement

The significance of the destination reached cannot be of much relevance if the path traveled is not accounted for. The endeavor of undertaking research has been both an intriguing and eventful process. Moreover, the path of exploration, irrespective of the ability of the explorer cannot be embarked upon single handedly. There is the need for assistance, teamwork and above all guidance.

Hence at the outset I would like to express my gratitude to my supervisors, Professor Bishwanath Chakraborty and Professor Usha Chakraborty, Immuno-Phytopathology Laboratory, Department of Botany, University of North Bengal. They not only guided me through the steps of the road map leading to the compilation of my thesis but time and again provided me with tools and teachings that have been helpful in all the spheres of my being.

I would also like to put forward my humble gratitude to Dr. Arnab Sen. Head, Department of Botany for providing me with the opportunity to utilize the space and resources of the Department. Moreover, I also want to convey my deep sense of appreciation to all the faculty members of the department who in some way or the other provided me with amendable input and insights during my endeavor.

I also acknowledge the financial assistance granted by University Grants Commission under Special Assistance Programme.

I take the liberty to thank all my Senior Research Scholars, for the help they endowed me with, during the initial phases. Moreover, my hearty gratitude to field man Late. Mr Sudarshan Tirkey for his contribution. I also convey my appreciation to Mr. Babul da for his assistance.

I would like to express my indebted gratefulness to Mr. Pannalal Dey, Mr. Kiran Sunar, Mr. Utanka Dey, Mr. Arka Pratim Chakraborty, Mrs Sanjita Alley, Miss Sweta Khati and all other scholars without whose support and involvement, attaining this milestone would have been impossible.

Last but not the least I express my appreciation to my family and relatives for the moral support. However I earnestly would like to put across my thankfulness to my dear friends Mr. B. K. Rai, Mr. R. Yonle and Miss P. Ray for selflessly lending me constant support and motivation throughout my work.

Immuno- Phytopathology laboratory
Department of Botany, N.B.U.
