

ACKNOWLEDGEMENT

At the successful completion of my Thesis work, first of all I bow my head on the feet of Lord Sri Krishna. I express my humble and heartily gratitude to my father, whose lovable and inspiring manner was the key factor of my success.

I have no words to thank my respected well wisher and honorable supervisor, Dr. Hemant K Badola (Scientist 'E' - *Conservation of Biodiversity*) and former Scientist in-charge of the Sikkim Unit of the institute. I am indebted to his incredible support for allowing me to work at my own pace and giving me the freedom to explore, sharing his great knowledge and experiences. Without his motivation and guidance, it would not have been possible for me to accomplish this Ph. D. Thesis work. It was his initiative and immense encouragement that I was able to take up the research work in such a challenging topic.

I am extremely grateful to Dr. L.M.S. Palni, the Director, GBPIHED, Kosi-Almora, for providing necessary facilities, support and encouragement during the course of my research work throughout. I am also thankful to Dr U. Dhar (the former Director, GBPIHED, Kosi-Almora) for providing necessary facilities and support.

I thank Dr. K.K. Singh, Scientist 'D' & Scientist in-charge of Sikkim Unit for his valuable support and help from time to time. I thank Dr. YK Rai (GBPIHED) for his encouragement and helpful attitude. Shri LK Rai (GBPIHED) is acknowledged for his never hesitating help in solving the taxonomical problems whenever I faced.

I am heartily grateful to Prof. (Dr.) A.P. Das, Department of Botany (University of North Bengal) for his valuable help, suggestions and support from time to time. I acknowledge Shri Ranjan Joshi (GBPIHED), Dr. Bhoj K. Acharya, Government College (Sikkim), Dr. Santosh Chettri (ATREE, Darjeeling) for their

constant back up. Nursery technical support and help from Shri Jagannath Dhakal and Prem Tamang is gratefully acknowledged.

I thank the Forest, Environment and Wildlife Management Department, Government of Sikkim for permitting me to collect plant propagule/material for the research purpose from the wild. The field staff of the department is acknowledged for their time to time help in the forests.

I extend my gratitude to my dear sister, Late Tulsi Devi, who always supported and encouraged me in my work when she was alive. I have no words to express my gratitude to my beloved wife (Lakpa Doma) for taking immense responsibilities in rearing my little son (Keshav) and for being my best friend when I was heavily engaged in my research. I also thank my other family members for their enormous mental and physical support during the course of the work.

I appreciate my great friends Kailash, Ashok, Man Mohan, Sanjyoti, Santosh, Bhusan, Lawa, Mohan and Shekhar for their motivation. I must thank my friend, Dilli Ram Dahal for helping me in preparing the maps, etc. Mr R.K. Das, Syambir, Mussafir Rai cooperated me highly. And, Dilip, Pratap, Sanjeev and Dinesh assisted in the field, laboratory and the nursery execution. I thank the supporting staff of the Sikkim Unit of the institute for helping me in many ways.

Last but not the least, I extend my gratitude to all those great people who were directly or indirectly involved during this endeavor.

- Bharat K Pradhan
