

ACKNOWLEDGMENT

I am much grateful and indebted to my famous professor, my admired guru Dr. Haripada Bhaumik for his jovial and splendid guidance to complete my work. The idea of the present study has been received from him and it is entirely his inspiration that has motivated me in the course of this work. His foresight and very thorough analysis and lucid explanation of the problem have inspired and motivated me to convert his thought into action, which I believe will go a long way in overcoming the problems related to pollution abatement associated with the tannery industry.

I am also indebted to Dr. D. S. Mukherjee, former Principal, Government College of Engineering and Leather Technology, Kolkata-700098, for his warm cooperation and liberal support in all respect.

I am ever grateful to my teacher Dr. Buddhadeb Chattopadhyay, Principal, Government College of Engineering and Leather Technology, Kolkata-700098, for his affectionate help and all out support to me in completing this work.

I am especially obliged to my teacher Prof. Swapan Kumar Basu, Government College of Engineering and Leather Technology, for his kind and wholehearted cooperation.

I am also deeply indebted to my teacher and colleague Dr. Sanjoy Chakraborty, for his lucid suggestion and heart-felt cooperation in each and every stage of my work.

I am very much obliged to the Boot and Shoe Department, of this college for their cordial help in my work, particularly connected with the testing of finished leather.

I am also thankful to my other teaching and non-teaching colleagues of the college including the security staff for their cordial help, whole hearted cooperation and generous encouragement in my work throughout the entire investigation period.

I am also indebted to senior leather technologists Mr. Arnab Kumar Jha, the president and Mr. Asit Baran Kanungo, Vice-President of Indian Leather Technologists' Association for their cordial help by supplying different materials related to the study.

I am also thankful to my classmate and friend Mr. Jayanta Choudhury, senior sales manager of Balmer-Lawrie India Ltd. (Leather Chemical Division), who has been kind enough to supply certain raw materials and chemicals needed for my research work.

I am especially grateful to the Director of Technical Education, Government of West Bengal, for his kind support and also to the Government of West Bengal in the Department of Higher Education for kindly granting the permission for carrying out Ph.D. work.

I am also thankful to my wife, Mrs. Anuva Taraphdar, for her sincere encouragement and for shouldering the household responsibilities and thus enabling me to complete my research work.

Lastly, I express my sincerest gratitude to my father Late Satish Chandra Taraphdar and to my mother Smt. Priobala Taraphdar for the love and blessings from them.

Asutosh Taraphdar
