

ACKNOWLEDGEMENT

I am deeply indebted to Dr. Sadhan Ch. Kar, Associate Professor in Economics, Dinhata College, Cooch Behar, and Professor Anil Bhuimali, Department of Economics, the University of North Bengal, for their valuable guidance, constructive criticisms and sustained interest throughout the period of investigation and preparation of this Thesis. This valuable work is the result of their devoted guidance, co-operation, inspiration and encouragement during the entire period.

I am grateful to all the teachers and staff of the department of Economics of the University of North Bengal for their all round support and cooperation during my research works.

I am specially thankful to my colleagues Dr. Soumitra Sarkar and Dr. K. K Mandol of Alipurduar College who helped me in using the Statistical Software and also in drawing the figures for this Thesis. I am also thankful to all of my colleagues for their inspiration and encouragement.

I would like to express my heartiest thanks to my student Satadipa Bhattacharjee for her valuable help and co-operation in compiling the data and constant inspiration.

I would like to express my heartiest love and thanks to my wife MITA, my son RUP and cute daughter RUPSA for their sacrifice and constant inspiration throughout the period of my research work.

I am thankful to Manik shil of Alipurduar College for his helping hands in computer related works during the course of my research work.

Finally, my gratitude also remains for all the villagers of the sample villages and all the officials of the district related to my study.
