ACKNOWLEDGEMENT	(i)
SUMMARY	(iii)
CONTENTS	(x)

PART-I

A SHORT REVIEW ON THE NATURE OF BONDING AND OTHER RELATED PROPERTIES OF ORGANOTIN COMPOUNDS.

1.A. Introduction	1
1.B. Bonding in Organotin Compounds	1
1.C. Catenation properties of tin in Organotin Compounds	2
1.D. Ionic nature of Organotin Compounds and effect of bond polarity upon reactions	3
1.E. Multiple bonding and the effect of availability of d-orbitals of tin in Organotin Compounds	7
<u>BIBLIOGRAPHY (PART-I)</u>	10

PART-II

ACTION OF METAL HALIDES ON BIS(ORGANOTIN) OXIDES AND RELATED COMPOUNDS.

2.A. Introduction	12
-------------------	----

	Page
2.B. Preparation of Organotin oxides and hydroxides	12
2.C. Physical properties of Organotin oxides and hydroxides	14
2.D. Chemical properties of Organotin oxides and hydroxides	19
2.E. Scope, objects and results	33
<u>EXPERIMENTAL (PART-II)</u>	
1. Preparation of tetraphenyltin	39
2. Preparation of triphenyl tin chloride	40
3. Preparation of bis(triphenyltin) oxide	40
4. Preparation of bis(tripropyltin) oxide	41
5. Preparation of tribenzyl tin chloride	41
6. Preparation of bis(tribenzyltin) oxide	41
7. Reaction of bis(triphenyltin)oxide with mercuric chloride	42
8. Reaction of bis(triphenyltin) oxide with mercuric bromide	44
9. Reaction of bis(triphenyltin) oxide with mercuric iodide	46
10. Reaction of bis(triphenyltin) oxide with cadmium iodide	47
11. Reaction of bis(triphenyltin) oxide with zinc chloride	50
12. Reaction of bis(triphenyltin) oxide with aluminium chloride	51
13. Reaction of bis(tripropyltin) oxide with mercuric chloride	52
14. Reaction of bis(tribenzyltin) oxide with mercuric chloride	54

	Page
15. Reaction of bis(triphenyltin) sulphide with mercuric chloride	57
16. Reaction of bis(triphenyltin) sulphide with cadmium iodide	58
17. Reaction of bis(triphenyltin) sulphide with zinc chloride	59
18. Reaction of bis(triphenyltin) sulphide with aluminium chloride	60
19. Reaction of triphenyl tin chloride with mercuric oxide	61
20. Reaction of tribenzyl tin chloride with mercuric oxide	62
21. Reaction of mercuric chloride with sodium salt of triphenyl tin hydroxide	63
<u>DISCUSSION (PART-II)</u>	67
<u>BIBLIOGRAPHY (PART-II)</u>	80

PART-III

ACTION OF MERCURIC HALIDES ON ORGANOTIN OXINATES

3.A. Introduction	86
3.B. Organotin Complexes	87
3.C. Organotin Oxinate Complexes	95
3.D. Scope, objects and results	100

EXPERIMENTAL (PART-III)

1. Preparation of triphenyl tin oxinate	104
2. Preparation of diphenyl tin dioxinate	105

3. Preparation of diphenyl chloro tin oxinate	105
4. Reaction of mercuric chloride with triphenyl tin oxinate	106
5. Reaction of mercuric chloride with diphenyl chloro tin oxinate	107
6. Reaction of mercuric chloride with diphenyl tin dioxinate	109
7. Reaction of mercuric bromide with triphenyl tin oxinate	110
8. Reaction of mercuric bromide with diphenyl tin dioxinate	111
9. Reaction of mercuric iodide with triphenyl tin oxinate	112
10. Reaction of mercuric iodide with diphenyl tin dioxinate	113
<u>DISCUSSION (PART-III)</u>	114
<u>BIBLIOGRAPHY (PART-III)</u>	121

PART-IV

SPECTROPHOTOMETRIC INVESTIGATIONS ON THE SOLVOLYSIS OF TRIPHENYL TIN OXINATE IN METHANOL.

4.A. Introduction	125
<u>EXPERIMENTAL (PART-IV)</u>	128
<u>RESULTS AND DISCUSSION (PART-IV)</u>	129
<u>BIBLIOGRAPHY (PART-IV)</u>	153

PART-V

ACTION OF TRIPHENYL TIN CHLORIDE ON SODIUM-TETRAPHENYL ETHYLENE ADDUCT.

5.A. Introduction	154
-------------------	-----

	Page
5.B. Nature of sodium-Tetraphenyl ethylene adduct	156
5.C. Reaction of alkali-aromatic hydrocarbon adduct with organic or other halides	156
5.D. Scope, object and results	158
<u>EXPERIMENTAL (PART-V)</u>	159
<u>DISCUSSION (PART-V)</u>	164
<u>BIBLIOGRAPHY (PART-V)</u>	168
