ACKNOWLEDGEMENT ..	(I)
PREFACE ..	(III)
CONTENTS ..	(V)

CHAPTER I

A SHORT REVIEW OF ORGANOMERCURY CHEMISTRY

IA. Introduction ..	1
IB. Routes to organomercury compounds	1
IC. Organomercury(I) compounds ..	2
ID. Properties and structure of organomercury compounds ..	3
IS. Complexes of organomercury compounds	7
(a) Complexes of organomercury salts with neutral donor molecules	9
(b) Complexes of organomercury compounds of the type $R_2Hg.L$..	23
(c) Anionic complexes of organomercury compounds ..	30
(d) Intramolecular coordination compounds	33
(e) Arene complexes ..	36
BIBLIOGRAPHY ..	39

CHAPTER II

ORGANOMERCURY CARBOXYLATES

IIA. Introduction	..	51
IIB. Routes to organomercury carboxylates		51
IIC. Properties of organomercury carboxylates		56
BIBLIOGRAPHY	..	59

CHAPTER III

PREPARATION, PROPERTIES, IR AND ¹H NMR SPECTRA
OF SOME NEW ORGANOMERCURY CARBOXYLATES.

IIIA. Introduction	..	62
IIIB. Ligands used in the present study		65
IIIC. Methods of preparations	..	71
IIID. Infrared spectra	..	73
IIIE. PMR spectra	..	97
IIIF. Experimental		
IIIF1. Synthesis	..	107
(i) Preparation of organomercury compounds used in the present investigation		107
(ii) Purification of solvents		109
(iii) Preparation of azo-carboxylic acids		110
(iv) Reactions for the preparation of organomercury derivatives		113

(VII)

		Page
IIIF 2	IR spectra ..	135
IIIF 3	NMR spectra ..	135
	BIBLIOGRAPHY ..	136

CHAPTER IV

ABSORPTION SPECTRA AND STRUCTURE OF THE
ORGANOMERCURY (o-ARYLAZO)BENZOATES.

IVA.	Introduction ..	139
IVB.	Results and Discussion ..	144
IVC.	Azo-hydrazone tautomeric equilibria in (4-hydroxybenzenesazo)benzoic acids and their organomercury derivatives: A quantitative study ..	164
IVD.	Experimental	
	1. Synthesis ..	173
	2. UV - Visible spectra ..	173
	3. Computation of integrated Absorbance and equilibrium constants	173
	BIBLIOGRAPHY ..	174
