

## LIST OF FIGURES

		<u>Page</u>
1.3	Map of Teesta River and its catchment area..	..25(a)
2.3.1	An outline of the derivation of Recursive Estimation Algorithms .. ..	40
2.3.2	Block diagram of recursive instrumental variable algorithm. The switch S closes at the ends ' $t_n$ ' of each pass through the block of N data samples .. ..	52
2.3.3a	Recursive - iterative parameter estimation. The notation $t_k$ in this example denotes the k-th discrete sampling instant in a time series with N samples, the superscript i in $\hat{x}$ denotes the estimate at the beginning of the (i+1) th iteration through the data .. ..	53
2.3.3b	Recursive and iterative data processing .. ..	54
2.3.4	Exponential nature of the weighting function is illustrated .. ..	57
2.4.1	Concept of feed forward transformation .. ..	66
2.4.2	Flow chart of multilayer GMDH algorithms .. ..	71
3.1	Teesta and Its Tributaries .. ..	152
3.3.1	Teesta and Its Tributaries .. ..	153
3.3.2	Integral Sq. Error at different layers for model flow at Coronation Bridge Point of River Teesta .. ..	154
3.3.3	Hourly flow at Coronation period 4.00 on 23.7.79 to 15.00 on 25.7.79 .. ..	155
3.4.1	Teesta and Its Tributaries .. ..	156
3.4.2	Integral Sq. error at different layers for model flow at Domchani .. ..	157
3.4.3	Hourly flow of river Teesta at Domchani Road Bridge .. ..	158
3.5.1	Teesta and Its Tributaries .. ..	159
3.5.2	Integral Square Error for different layers .. ..	160

	<u>Page</u>
3.5.3 Observed and modelled values of sixth hourly flow at Coronation Bridge Point from 2.30 hours on 20.7.1979 to 20.30 hours on 31.7.1979	.. .. 161
4.3.1 Teesta and Its Tributaries	.. .. 183
4.3.2 Observed and modelled values of the hourly flow at Domohani	.. .. 184
5.6.1 Teesta and Its Tributaries	.. .. 213
5.6.2 Flow of river Teesta at Domohani during a short span storm period from 16.00 hours on 23.7.1979 to 15.00 hours on 25.7.1979	.. .. 214
5.6.3 Flows of river Teesta at Domohani from 13.00 hours on 23.7.1979 to 15.00 hours on 25.7.1979	.. .. 215
5.6.4 Flows of river Teesta at Domohani from 21.00 hours on 23.7.1979 to 15.00 hours on 25.7.1979	.. .. 216
5.6.5 Error Sequence for Coefficient of Correlation	.. .. 217
6.5.1 Teesta and Its Tributaries	.. .. 273
6.5.2 Power density spectra Versus cycles per day of daily flow of Teesta at Domohani	.. .. 274
6.5.3 Daily flow sequence correlation Vs. shift of time in days for period 1st July, 1976 to 31st August, 1976	.. .. 275
6.5.4 Actual flow and model error at Domohani of river Teesta period 3rd January, 1979 to 10th April, 1979	.. .. 276
6.5.5 Observed flow and model error at Domohani of river Teesta: Period 2nd July, 1975 to 30th August, 1975	.. .. 277

	<u>Page</u>
6.5.6 Observed flow and model error for daily flow of Teesta at Domohani for the year 1973 from 1st January to 31st December, 1973	.. .. 273
6.5.7 Correlation Versus Time Shift	.. .. 279
