

A C K N O W L E D G E M E N T

The present thesis embodies the results of research carried out by the author at the Department of Chemistry, University of North Bengal, Dist. Darjeeling, West Bengal starting from 4th August of 1976.

The author takes the first opportunity to express his heart-felt gratitude to Dr. S.C.Roy, Reader in Chemistry, North Bengal University for his unstinted help and guidance throughout the research work.

The encouragement and interest received from late Prof. H. N.Khastgir, former Head of the Department of Chemistry, North Bengal University appreciatively is recorded and acknowledged. His thanks are also due to Prof. A.K.Ghosh, Head of the Department of Chemistry, North Bengal University and Prof. S.K. Chakravarti, previous Head of this Department for their keen interest of the author's work.

The candidate is also grateful to Mr. Ranjit Sarkar, M.Sc. his colleague for continuous help in author's research work. The candidate is also grateful to Mr. S.De his former teacher, Mr. S.C.Sarkar and Mr. P.C.Sarkar for their constant inspiration.

The author is thankful to Mr. S.L.Dutta, M.Sc., Instrumentation Officer, Department of Chemistry, North Bengal University,

for most of the I.R. spectra recorded in this thesis.

The candidate is thankful and indebted to Dr. A. Bernhardt, West Germany; Director, Central Drug Research Institute, Lucknow, India; Director, National Chemical Laboratory, Pune, India and Director, Bose Institute, India for micro analysis, N.M.R. spectra, Mass spectra and G.L.C of the compounds. He is also thankful to Prof. U.R.Ghatak, Head, Department of Organic Chemistry, I.A.C.S., Calcutta-32 for gift of some chemicals and other help.

The author wishes to thank all the research scholars of the North Bengal University, particularly those of the Chemistry Department for helping in various ways during the period of research work.

The candidate is also thankful to all the employees of this Department for their co-operation. It is felt that without their sympathy and assistance, the work could not be completed even in this scope with the very limited facilities open to the author.

The candidate is thankful to University Grants Commission and the authority of the North Bengal University for the award of a scholarship and facility to carry out research work.

Finally, the author wishes to express his gratitude and indebtedness to his close relatives and his brothers and sisters for their constant inspiration.
