

A C K N O W L E D G E M E N T

It gives me great pleasure to express my deep sense of gratitude to Dr. M.I.D. Sharma, Director, National Institute of Communicable Diseases (N.I.C.D.), Delhi, for his kind supervision, useful suggestions and granting all facilities during the course of this investigation.

I am indebted to Dr. R.R.Arora, Deputy Director, Epidemiology Division, N.I.C.D., for allowing me to work along with my usual routine research studies on Intestinal Parasites and his keen interest in the subject of the study. I express my deep gratefulness to Dr.C.K.Rao, Deputy Director, National Filaria Control Programme, N.I.C.D., Delhi, for critically reviewing the manuscript and valuable suggestions. Indebtedness is also expressed to Dr. S.K. Lahiri, Assistant Director, Field Practice Unit, N.I.C.D., Alwar, Rajasthan and Dr. A.B. Gupta, Medical Officer Incharge, Primary Health Centre, Malakhera, Alwar, (Rajasthan), for their sincere help and facilities to carry out this study.

Thanks are due to Dr. R.C. Banerjee, Meteorologist, Indian Meteorological Department, Jaipur, Rajasthan, for permitting me to record the meteorological information connected with this study. I wish to express my sincere thanks to Miss Santosh Chandrawat, Research Assistant, Agricultural Department, Rajasthan for a critical analysis of the soil sample of the study area.

I have been benefited from the discussions with Dr. B.S. Misra, Research Officer and Dr. S.R. Gupta, retired Research Officer, N.I.C.D., Delhi, in the presentation of the thesis. I am deeply grateful to Mr. P. Singha, Officer on Special Duty, Ministry of Health and Family Welfare, for his useful guidance in designing the study, interpreting the data and encouragement throughout the course of the study. Grateful acknowledgement is made to Sri J.P. Gupta, Assistant Director (Statistician), N.I.C.D., Delhi, for the help rendered to me.

I take this opportunity to thank Sri R. Tandon, Photographer, N.I.C.D., Delhi, for the photographs and illustrations. Sincere thanks are also due to Sri K.K. Mathur, Research Assistant and Sri Hari Ram, Statistical Assistant of Epidemiology Division, N.I.C.D., Delhi, for the sincere help and cooperation rendered in the collection of relevant information and faecal samples from the surveyed area throughout the study period. My heartfelt thanks are expressed for Sri Gautam Mahalanbish of Delhi University for his help.

I desire to record my appreciation of sincere help rendered to me by Sri Vinod Kumar Sharma, Senior Teacher, Government Higher Secondary School, Malakhera

(Rajasthan) to convince the villagers about the importance of the study and to make them cooperate throughout the study period. Technical assistance offered by Sri Jagdish Prasad and Sri P.S. Verma, Technicians, Epidemiology Division, N.I.C.D., Delhi, are gratefully acknowledged. I am grateful to Sri R.K. Chopra, Sri D.K. Rungh, and Sri Amar Jit Singh, Stenographers and Sri R.N. Chatterjee, Technician of Epidemiology Division, N.I.C.D., Delhi for typing the thesis.

Last but not least I am grateful to the selected people of the village Malakhera; without their unstinted cooperation for this prolonged study, it would have neither been possible to complete the study nor present this valuable data.
