

C O N T E N T S

<u>Topics</u>	<u>Pages</u>
1. Introduction .. .. .	1
2. Objectives of the study .. .. .	3
3. Selected village and its population .. .. .	5
4. Topography of the village .. .. .	7
5. Ecological conditions .. .. .	19
(a) Climate .. .. .	19
(b) Soil .. .. .	26
6. Material and methods .. .. .	27
(a) Study design .. .. .	27
(b) Sample design .. .. .	36
(c) Choice of methods for collection and examination of stool samples. Scope and limitation of the methods followed.	44
i. Collection of stool samples .. .. .	46
ii. Examination of stool samples .. .. .	46
7. Intestinal parasites encountered .. .. .	48
8. <u>CHAPTER - I</u> .. .. .	53
<u>Pathogenic parasites</u>	
(a) <u>Entamoeba histolytica</u> .. .. .	54
(b) <u>Giardia lamblia</u> .. .. .	77
(c) <u>Hymenolepis nana</u> .. .. .	91
(d) <u>Hymenolepis diminuta</u> .. .. .	108
(e) <u>Taenia solium</u> .. .. .	111
(f) <u>Ascaris lumbricoides</u> .. .. .	115
(g) Hookworm .. .. .	133
(h) <u>Enterobius vermicularis</u> .. .. .	154
(i) <u>Trichuris trichiura</u> .. .. .	158
(j) <u>Strongyloides stercoralis</u> .. .. .	162

<u>Topics</u>	<u>Pages</u>
9. <u>CHAPTER - II</u>	165
<u>Nonpathogenic parasites</u>	
(a) <u>Entamoeba coli</u> .. .. .	166
(b) <u>Entamoeba hartmanni</u> .. .. .	178
(c) <u>Endolimax nana</u> .. .. .	193
(d) <u>Iodamoeba butschlii</u> .. .. .	208
(e) <u>Chilomastix mesnili</u> .. .. .	223
(f) <u>Embadomonas intestinalis</u> .. .. .	238
(g) <u>Enteromonas hominis</u> .. .. .	253
10. Difficulties faced .. .. .	257
11. Conclusion and suggestions .. .. .	259
12. <u>SUMMARY</u> .. .. .	261
13. References .. .. .	267
14. Reprints of publications (Appendix 'B')	283
