In performing my thesis, I had to take the help and guideline of some respected persons, who deserve my greatest gratitude. The completion of this thesis gives me much pleasure. I would like to extend my gratitude to Dr. Ranjan Roy, my Supervisor at Dept. of Geography and Applied geography, North Bengal University, for giving me a good guideline for this study throughout numerous consultations and introduced me to the methodology of work, and whose passion for the “underlying structures” has a lasting effect. I would also like to expand my deepest gratitude to all those who have directly and indirectly guided me in writing this assignment. In addition, I would like to acknowledge deep gratitude to teaching and non-teaching staffs of Dept. of Geography and Applied Geography, library staffs, staffs of science faculty who has helped me a lot for the completion of works. Many people, especially my seniors itself, have made valuable comments, suggestions on this proposal and this gave me an inspiration to enrich my work. I wish to thank all those persons who has come into my life, inspired and illumined me for the successful completion of this endeavour journey.
