

## ACKNOWLEDEMENT

Team work has been the key to great achievements particularly in research work. But it is no panacea to serve all needs. I had set myself could not well be satisfied but, rather, were certain to be missed, by cooperative efforts. I hereby acknowledge with gratitude the help rendered by the following persons during my research work and preparation of thesis.

I wish to express my heartiest thanks to Sri Ali Mehdi, Reader & Head of the North Bengal University college of Law, who is also my guide. He not only suggested the title of this work entitled "CHANGING DIMENSION OF STRIKES AND ITS LEGAL CONSEQUENCES" at the inception, but also gave crucial support in searching decisions, painstaking comments on each chapter and bringing the work to completion otherwise, it would never have come what it is. I have received valuable help from my guide, through which I could do major work in a very short time.

I have greatly benefited from the comments and thoughts from the supplemented information provided by Sri Katari Devaiah, Chief Vice-President, National Mazdoor Union (Retired ADC, Guntur-II Depot), APSRTC, Andhra Pradesh. I would like to extend my sincere thanks to the staff of APSRTC, particularly Guntur and Vinukonda Depots. I fail in discharging my duty if I could not mention the name of Bodi. Venkateswarlu, Security Guard of Coal mines (who assisted me in collecting opinions of the workmen working in coal mined both on surface and deep mines), Singareni Collieries, Kothagudem, Andhra Pradesh and other staff of the coal mines.

My colleagues have been good enough to provide various thoughts and to give the benefit of advice. I wish to record my indebtedness to Sri Birendra

Chettri, State Informatics Officer, National Informatics Centre, Gangtok, Sikkim who rendered unforgettable help in the research work by allowing me to use his laboratory and extending the technical support which help is un-forgetful throughout my life. During my research I find him to be “a man of help” to any one in need. Every body in his life gets the chance of helping the others, but rare persons like Sri Birendra Chettri, utilize the chance to the maximum, which may allow the beneficiaries to develop their knowledge and qualifications. Any much I write here with regard to him is nothing before the help rendered by him to me and others. The other staff of the NIC, Gangtok, Sikkim is no less than the Scientific Officer. I sincerely thank Sri Gulshan Rai Nagpal, Advocate, New Delhi in sharing his valuable opinions with regard to analysis of the research material.

I am entirely not here to omit the names of Sri R.K, Agarwal & family, who did not find much to object to me from any help. I wish to thank the staff of the American library and British library, New Delhi. I am also indebted to my friends as well as present and ex-students (particularly Suraj Prakash Rasaily, Senior Accountant, O/O the Accountant general, Gangtok, Sikkim) for the help rendered by them in compilation of the work and technical support in computer related problems. I like to acknowledge the support rendered by Mr. K. Rajesh and G. Siva, Data Operators of BSNL, Gangtok in collecting the information from various sources particularly from VIPs. I am grateful to A. Appa Rao, Sr. A.O. (TRA), BSNL, Gangtok, for the help rendered by him.

Finally, I would like to extend my heartiest thanks to my wife Mrs. Chandravati, B.A., who did the major role of Steno, of taking notes and typing on computer. She did this Herculean task very easy. She is closely associated with my work all the time. She has been my critical superego, sternly insisting on logical and semantic clarity in the formulation of my thoughts and mode of expression.
