*This doctoral thesis wouldn't have been possible without the blessings of my Almighty in disguise, and the unstinted wholehearted support and assistance by innumerable personalities who in one way or other have contributed and rendered their valuable inputs in the completion of the study.*

*At the very outset I would like to convey my deepest gratitude and thankfulness to my research supervisor, Dr Mohammad Yasin Sir for his valuable guidance, scholarly advice, constant encouragement and untiring effort to push and back me in every stage of my life. Despite his hectic and busy schedule it was his generosity and kindness to accept me as his scholar for the research programme. His uncompromising and far sighted perceptions, constructive comments and dedicated efforts are the only mantra which made me earn this research work. Perhaps words are too less to define his contribution in my academic, professional and personal life. I am highly indebted for the unfailing support love and patience that Sir Yasin, Sreenanda Maam (especially for those late evening refreshing teas) and Brother Neel, bestowed on me for the successful completion of this research work.*
