

## **ACKNOWLEDGEMENTS**

*My collective work of research including different forms of experiences and ideas will remain incomplete without offering sincere gratitude to those people who helped me during this venture, since words are inadequate to expressing such feelings. My painstaking days at the laboratory of the Department of Chemistry at the University of North Bengal during the course of this work would not have been an enjoyable experience, had it not been for the presence of many good-hearted individuals at the working place and caring family members at home. It would not have been possible to realize this work without the friendly help and advice provided by all of them, to whom I take this opportunity, to acknowledge and thank.*

*Primarily, I acknowledge my deep sense and sincere gratitude to my advisor, **Dr. Ashis Kumar Nanda**, for his invaluable ideas, guidance and constant support during the entire period of my research work. Under his guidance, I was given the freedom to take my research into the areas that lures me the most. Not only is he a valuable information source, but also an excellent mentor. It has been my pleasure to work with someone who truly loves what he does and refreshing to see somebody who enjoys science so much. I consider myself fortunate enough to be associated with him. His vast scientific knowledge, personal care and spirit resulted in this present endeavor. Due to him my time at this department has been excellent.*

*I would like to take this opportunity to thank the Head and all Faculty members as well as Non-teaching staff members of the Department of Chemistry for their help during this course of study.*

*I am deeply indebted to my beloved teacher **Prof. Pranab Ghosh**, for his guidance & encouragement throughout the entire work period. Without his precious suggestions, I would not have been able to complete my research work and would never have been what I am today.*

*I am extremely thankful to my respected teacher **Prof. Mahendra Nath Roy**, for always giving me a constructive idea.*

*I wish to express my deep sense of gratitude and respect to **Prof. S. K. Saha** for the DSC studies.*

*I am really grateful to **Prof. B. Basu** for his constant helping hand and for helping me out with a lot of suggestions.*

*I express my sincerest gratitude to **Prof. P. S. Roy** for taking out his time and personally helping me with the cyclic voltammetric study.*

*I am also extremely grateful to **Dr. Sajal Das** for NMR study and encouraging me for my work.*

*I am really grateful to **Dr. A. Kumar** for his valuable suggestions and biological studies to initiate me for long.*

*My sincere thanks to all the research scholars of the Department of Chemistry, especially Prasanjit, Bhaskar Da, Kinkar Da, Sujit Da, Bittu Da , Prasant Da, Prasanjit Da, Mainul Da, Gulmi, Madhurima Di, Vivek Kumar Ranjan, for they have helped me in one way or the other at all times.*

*The episode of this acknowledgement would not be completed without the mention of my senior lab mate **Dr. Kiran Pradhan**, for his stimulating discussions, help and great company.*

*I am extremely grateful to thank the authorities of the University of North Bengal for providing me with the required facilities and the U.G.C. for awarding me fellowship and financial assistance. I owe a great deal to my friends Md Nurul Huda, Runalika Nath,*

*Pintu Shil, Mandeep and Gourav who have always extended their helping hands when needed.*

*I can't express my gratitude to my Mother in words for her support of all my life's choices and her unconditional love which is a constant source of strength for everything I do.*

*My father had expired when I was two years old, and since then, my elder brother, **Nasir Da** and my sister-in-law has been the beacon of light in my life and every successful endeavour of mine silently draws inspiration from him. In my life there is another important person, **Siddique Da**, who always gives me valuable suggestions, information and very significant ideas that I have constantly received. I am very lucky because of my nephew, **Minhaj**, who always helped me for any kind of work and always give me his valuable time whenever I need him. Their blessings, affection and care have been a constant source of inspiration throughout the entire period of my academic career. This thesis would not have been completed without them. I am highly indebted to them all.*

*I express my gratitude to my all elder brothers, sister-in-laws, nephews, nieces and all other family members.*

*I would also like to express my sincere gratitude to my parents-in-laws, and brother-in-law, for providing me encouragement throughout my work and lending their support in all forms possible, and at all times.*

*Finally and certainly the most important person in my life, my wife has been my constant source of encouragement throughout this journey. Words are no measure to describe the forbearance and fortitude with which she has encouraged and enthused me. This thesis would not have been accomplished without her. All my toiling labour for my research work is also dedicated to her who shared her time with my work, for her unconditional love and understanding and for gifting me my beautiful son '**JARIF**'.*
