CHAPTER I	
INTRODUCTION	1-22
CHAPTER II	
THE CONCEPT OF BIO-MEDICAL WASTE, A NEW MENACE ON THE ENVIRONMENT: AN OVERVIEW	23-56
2.1 Meaning of Bio-Medical Waste	25
2.2 Classification of Bio-Medical Waste	27
2.2.1 Hazardous Waste	27
2.2.1.1 Infectious Waste	27
a. Waste contaminated with blood or other body fluids	28
b. Cultures and stocks of infectious agents from laboratory work	28
c. Waste from infected patients in isolation wards	28
2.2.1.2 Sharp Waste	28
2.2.1.3 Pathological Waste	28
2.2.1.4 Pharmaceutical waste, including Genotoxic Waste	29
2.2.1.5 Chemical Waste	29
2.2.1.6 Radioactive Waste	30
2.2.2 Non-hazardous General Waste	30
2.3 Sources of Bio-Medical Wastes	31
2.3.1 Major Sources	31
2.3.2 Minor Sources	32
2.4 Health Impact from Hazardous Bio-Medical Waste	33
2.4.1 Hazards to the Environment	34
2.4.2 Hazards to Persons	37
2.4.2.1 From Infectious Waste	37
2.4.2.2 From Chemical and Pharmaceutical Waste	38
2.4.2.3 From Genotoxic Waste	39
2.4.2.4 From Radioactive Waste	39
2.5 Need for the Regulatory Measures for the Effective Management of Bio-Medical Waste	39
• Polluter pays principle	40
• Precautionary principle	40
• Duty of care principle	40
• Proximity principle	40
• Prior informed consent principle	40
2.5.1 Source reduction: Recovery, Reuse and Recycling	41
2.5.2 Advantages of Waste Reduction	43
2.5.3 Waste Collection and Segregation	43
2.5.4 Sharp Management	44
2.5.5 Waste Containers	45

2.5.6 Labelling	46
2.5.7 Storage	47
2.5.8 Transportation	49
2.5.8.1 On-site Transportation	50
2.5.8.2 Off-site Transportation	50
2.5.9 Treatment and Disposal	51
2.5.9.1 Mechanical Process	52
• Compaction	52
• Shredding	52
2.5.9.2 Thermal Process	52
• Autoclaving	53
• Microwaving	53
• Hydroclaving	53
• Incineration	53
• Plasma System	53
• Gasification Technique	54
2.5.9.3 Chemical Process	54
2.5.9.4 Irradiation processes	54
2.5.9.5 Biological processes	55
2.5.9.6 Land fill or Deep Burial	55
2.6 An Overview	56

CHAPTER III

THE QUEST FOR THE BIO-MEDICAL WASTE MANAGEMENT UNDER THE INTERNATIONAL ENVIRONMENTAL REGIME: AN OVERVIEW

57-103

3. History and Development of International Environmental Law	59
3.1 Pre-Stockholm Development	59
3.1.1 Conventions Concerning Water and various Species	59
I. Convention for the Protection of Useful Birds to Agriculture, 1902	59
II. The Fur Seal Treaty of 1911	59
III. Convention Concerning the Use of White Lead in Painting, Geneva, 1921	60
IV. Convention for the Regulation of Whaling, 1931	60
V. The Convention of the High Seas, 1958	61
VI. Convention on Fishing and Conservation of the Living Resources of the High Seas, 1958	62
VII. The Oslo Convention for the Prevention of Marine Pollution by Dumping from Ships and Aircraft, 1972	62
3.1.2 Convention Concerning Fauna and Flora	62
3.1.3 Conventions Concerning Petroleum and its Products	63
3.1.4 Convention Concerning Radioactive Substances	64
I. Antarctic Treaty, 1959	65
II. Nuclear Test Ban Treaty, 1963	65
III. Treaty on the principles governing activities of the states in the exploration and use of outer space including the moon and other celestial bodies in 1967	65

IV. The Treaty for the Prohibition of Nuclear Weapons in Latin America (Talteloco Treaty), 1967	65
V. The Treaty on the Non-Proliferation of Nuclear Weapons, 1968	65
VI. The Treaty on the Prohibition of the Emplacement of Nuclear Weapons and other Weapons of Mass Destruction on the Sea-bed and Ocean Floor and in the Subsoil thereof, 1971	66
3.2 Stockholm Conference-A Way Forward	66
3.2.1 Historical Background	67
3.2.2 The Stockholm Declaration on Human Environment	67
3.2.3 The Action Plan	68
3.2.4 The Principles	69
3.3 Post-Stockholm Developments	72
3.3.1 United Nations Environment Programme (UNEP)	72
3.3.2 Objectives of UNEP	73
3.4 Other Important Conventions prior to Nairobi Declaration	75
I. Convention on International Trade in Endangered species of Wild flora and fauna, 1973	75
II. Convention for prevention of pollution originating from Land-based sources (Paris), 1974	75
III. Convention for the protection of Marine Environment of Baltic Sea Area, Helsinki, 1974	75
IV. Convention on Long-Range Transboundary Air Pollution, 1979	76
V. Convention Concerning Occupational Safety and Health and the Working Environment	76
3.5 Nairobi Declaration, 1982	76
3.6 Vienna convention for the protection of ozone layer, 1985	78
3.7 Montreal protocol on substances that deplete ozone layer, 1987	78
3.8 Basel convention on the transboundary movement of hazardous wastes, 1989	78
3.8.1 Aims and Objectives	79
3.8.2 Obligations of the Parties	81
3.8.3 Cooperation between the parties	82
3.9 The United Nations Conference on Environment and Development (UNCED), The Rio Declaration	83
3.9.1 The Rio Declaration	84
3.9.2 The Right to Environment and Sustainable development	84
3.9.3 The Legal Principles	85
3.9.4 The Policy Guidelines	86
3.10 Agenda 21	87
3.10.1 Aims and Objectives	87
3.10.2 The Sections	88
3.11 Convention on Bio-Diversity	91
3.11.1 Objectives	91
3.11.2 The Genetic Resources	92
3.12 Recent Developments	93
3.12.1 Basel Ban Amendment	93
3.12.2 Basel Protocol	94
3.12.3 The Stockholm Convention on Persistent Organic Pollutants (POPs)	95
3.12.4 The Minamata Convention on Mercury	99
3.12.5 The Paris Agreement	100

3.13 An Overview of the Various Conventions in the light of Bio-Medical Waste	101
---	-----

CHAPTER IV

THE QUEST FOR BIO-MEDICAL WASTE UNDER THE INDIA'S ENVIRONMENTAL REGIME SINCE ANCIENT PERIOD

104-135

4.1 Protection of Environment: The Religious Perspective	105
4.1.1 Christianity	105
4.1.2 Buddhism	106
4.1.3 Jainism	108
4.1.4 Sikhism	109
4.1.5 Islam	110
4.2 Ancient Civilisations in Protecting the Environment	112
4.2.1 Pre-Vedic Period	112
4.2.1.1 The Indus Valley Civilisation	113
4.2.1.2 Aryan Civilisation: The Beginning of Hinduism	114
4.3 Vedic Approach to Environment	115
4.3.1 Four Vedas	116
4.3.2 Upanishads	120
4.3.3 The Puranas	122
4.3.4 Manusmriti	123
4.3.5 Arthashastra	124
4.4 The Medieval Period	129
4.4.1 Mughal Period	130
4.4.2 Environment Protection during Colonial regime	132
4.5 An Overview	135

CHAPTER V

CONSTITUTIONAL DOMAIN FOR THE MANAGEMENT OF BIO-MEDICAL WASTE

136-173

5.1 The Preamble	139
5.2 Fundamental Rights	141
5.2.1 Right to Equality	142
5.2.2. Freedom of speech and Expression and of Trade and Business	144
5.2.3 Right to life and Personal Liberty	146
5.3 The Directive Principles of State Policy (DPSP)	155
5.4 Fundamental Duties	159
5.5 Legislative Relations	162
5.6 The Role of Judiciary for the Management of Bio-Medical Waste	167
5.7 An Overview	173

CHAPTER VI

MANAGEMENT OF BIO-MEDICAL WASTE UNDER THE GENERAL AND PARTICULAR ENVIRONMENTAL LEGISLATION IN INDIA 174-216

6.1 Control and Management of Bio-Medical Waste during Pre-Independence Period under the General Laws	176
6.1.1 The Indian Penal Code, 1860	177
6.1.1.1 Public Nuisance (Section 268)	177
• Ingredients of Public Nuisance	178
6.1.1.2 Spreading Disease (Section 269)	180
• Ingredients of Section 269	181
6.1.1.3 Fouling of Water (Sections 277 and 278)	182
• Ingredients of Section 277	183
• Ingredients of Section 278	184
6.1.1.4 Negligent Conduct with Respect to Certain Substances (Sections 284 to 289)	187
6.1.1.5 Mischief (Sections 425 and 426)	187
6.2 Post-Independence Specific Laws on the Handling and Management of Bio-Medical Waste	188
6.2.1 Factories Act, 1948	190
6.2.2 Code of Criminal Procedure, 1973 (Cr. P. C.)	191
6.2.3 Water (Prevention and Control of Pollution) Act, 1974	196
6.2.4 The Air (Prevention and Control of Pollution) Act 1981	199
6.2.5 The Environment (Protection) Act, 1986	201
6.2.6 The Atomic Energy (Safe Disposal of Radioactive Wastes) Rules, 1987	204
6.2.7 The Municipal Solid Wastes (Management and Handling) Rules 2000	206
6.2.8 The Batteries (Management and Handling) Rules, 2001	208
6.2.9 The Hazardous Wastes (Management, Handling and Transboundary Movement) Rules, 2008	210
6.2.10 The Plastic Waste Management Rules, 2016	213
6.3 An Overview	216

CHAPTER VII

CURRENT SCENARIO OF THE BIO-MEDICAL WASTE MANAGEMENT IN INDIA UNDER THE EXISTING LEGAL FRAMEWORK: A CRITICAL ANALYSIS OF BIO-MEDICAL WASTE MANAGEMENT RULES, 2016

217-282

7.1 The Existing Scenario of Bio-Medical Waste in India	217
7.1.1 Maharashtra	219
7.1.2 Kerala	222
7.1.3 Bihar	224
7.1.4 West Bengal	226
7.1.5 Tamil Nadu	229
7.1.6 Delhi	231
7.1.7 Karnataka	233

7.2 The National Regulatory Framework for the Management of Bio-Medical Waste	234
7.2.1. The National Guidelines on Hospital Waste Management, 2002	237
7.2.2 Infection Management and Environment Plan (IMEP), 2007	238
7.2.3 Guidelines of the Central Pollution Control Board (CPCB)	239
7.2.3.1 CPCB Manual on Hospital Waste Management, 2000	239
7.2.3.2 Guidelines for Universal Immunisation Programme	239
7.2.3.3 Guidelines on Auto Disable (AD) Syringes	240
7.2.3.4 Guidelines on Mercury-Contaminated Wastes	240
7.2.3.5 CPCB Guidelines for Bio-Medical Waste Incinerators	240
7.2.4 National Health Mission	240
7.2.5 Infection Control and Waste Management under National AIDS Control Project (NACP) III	241
7.2.6 National Long-term Policy on Bio-medical Waste under the Five-Year Plans	242
7.2.7 The Bio-Medical Waste Management Rules, 2016	246
7.3 An Overview of the Bio-Medical Waste (Management & Handling) Rules, 1998 and its amendments including the draft Bio-Medical Waste (Management & Handling) Rules, 2011	248
7.3.1 Meaning of Bio-Medical Waste	249
7.3.2 Applicability of the Rules	250
7.3.3 Categories/Types of Bio-Medical Waste	251
7.3.3.1 Category I	253
7.3.3.2 Category II	254
7.3.3.3 Category III	254
7.3.3.4 Category IV	255
7.4 The Process of Segregation of Bio-Medical Waste	255
7.5 Duty of the Occupier in segregating of Bio-Medical Waste	257
7.6 The Process of Packaging into the Colour Coded Containers/Bags	259
7.7 Labelling	261
7.8 Treatment and Disposal	262
7.9 Duty of Occupier in the Treatment and Disposal of Bio-Medical Waste	268
7.10 Standards for Treatment and Disposal	269
• Incineration	269
• Autoclave	270
• Liquid Waste	270
• Microwaving	271
• Deep Burial	271
7.11 Comparison of Treatment Technologies for Bio-Medical Wastes	273
7.12 Need for Common Bio-Medical Waste Treatment Facilities	275
7.12.1 Duties of the Operator of a Common Bio-Medical Waste Treatment Facility	277
7.12.2 Liability of the Occupier & Operator of Common Bio-Medical Waste Treatment Facility (CBMWTF)	279
7.13 The Process of Authorisation and the Duties of the Prescribed Authority	280
7.14 Monitoring Committee	281
7.15 An Overview	282

CHAPTER VIII

BIO-MEDICAL WASTE DISPOSAL SCENARIO IN USA, UK AND CHINA UNDER THE RESPECTIVE FRAMEWORK

283-325

8. Bio-Medical Waste Management in the Developed Countries	284
8.1 The United States of America (USA)	284
8.1.1 Medical Waste Tracking Act, 1988 (MWTa)	287
8.1.1.1 Definition of Medical Waste	288
8.1.1.2 Enforcement Machinery	289
8.1.2 The Clear Air Act, 1990	290
8.1.3 The Clean Water Act, 1992 and the Marine Protection, Research and Sanctuaries Act (MPRSA) 1992	291
8.2 Federal Regulations	292
8.2.1 Occupational Safety and Health Administration Acts and Regulations	292
8.3 Guidelines	294
8.3.1 The Environment Protection Agency (EPA) Guidelines	294
8.3.2 Center for Disease Control (CDC) Guidelines	295
8.4 Medical Waste Management in New York: Current Scenario	296
8.5 United Kingdom (UK)	300
8.5.1 The Regulatory Framework	300
8.5.1.1 The Environment Protection Act, 1990	303
8.5.1.1.1 The Duty of Care	303
8.5.2 Hazardous Waste (England, Wales and Northern Ireland) Regulations, 2006 and Special Waste (Scotland) Regulations, 2006	306
8.5.3 Carriage of Dangerous Goods and Use of Transportable Pressure Equipment Regulations 2004	307
8.5.4 Landfill (England and Wales) (Amendment) Regulations 2005	308
8.5.5 National Evidence-Based Guidelines	308
8.5.6 Health Technical Memorandum	309
8.6 Healthcare Waste Management in the City of London: Current Scenario	310
8.7 People's Republic of China	313
8.7.1 Acts, Regulations, Rules and Standards	314
• Regulation on Medical Waste Management, 2003	315
• Technical Standard for Medical Waste Transport Vehicle, 2003	315
• Technical Standard for Medical Waste Incinerator, 2003	315
• The Classification Catalogue of Medical Waste, 2003	316
• Measures for Medical Wastes Management of Medical and Health Institutions, 2003	316
• The Centralised Disposal Technical Specifications of Medical Waste (on Trial), 2003	316
• The Management Administrative Punishment Measures of Medical Waste, 2004	316
• Technical Specification Medical Waste Centralized Incineration Facility, 2005	316
• Technical Specification for Chemical Disinfection Centralised Treatment Engineering on Medical Waste (on Trial), 2006	316

• Technical Specifications for Microwave Disinfection Centralised Treatment Engineering on Medical Waste (on Trial), 2006	316
• The Technology Standard for Hazardous Waste (Including Medical Waste) Incineration Disposal Facilities Dioxin Emission Monitoring, 2007	318
• Standard of Packaging Bags, Containers and Warning Symbols Specific to Medical Waste, 2008	318
• Perfectly Revised National List of Hazardous Wastes, 2008	318
• Technical Specifications for the Supervision and Management to the Operation of Centralised Incineration Disposal Facilities for Hazardous Waste (on Trial)	318
• Technical Specification of Performance Testing for Facilities of Hazardous Waste (Including Medical Waste) Incineration, 2010	318
• Technical Specifications for Collection, Storage, Transportation of Hazardous Waste, 2012	318
• Technical Specifications for Hospital Sewage Treatment, 2013	318
• Technical Guidelines for Solid Waste Treatment & Disposition Engineering, 2013	319
• General Specifications of Engineering and Technology for Hazardous Waste Disposal, 2014	319
8.8 Bio-medical Waste Scenario in Beijing, China	320
8.9 Analysis of the Laws of USA, UK and China for Better Management of Bio-Medical Waste in India	323
8.10 An Overview	324

CHAPTER IX

STATUS OF THE BIO-MEDICAL WASTE DISPOSAL SCENARIO IN SILIGURI TOWN: AN EMPIRICAL STUDY 326-355

9.1 Geographical location of Siliguri Town	326
9.2 Population of Siliguri	326
9.3 Health Care Institutions in Siliguri Town	327
9.4 The Study Area/Universe	329
9.5 Methodology adopted for the Collection of Data	330
9.6 Limitations	332
1. Difficulty in obtaining permission	332
2. Non-co-operative attitude	332
3. Illiteracy	333
9.7 The Respondents	333
9.8 Assessment of the Bio-Medical Waste disposal scenario in Siliguri Town in the light of knowledge, awareness, attitude and practices followed by the respondents	335
9.8.1 Knowledge relating to the existing Rules, nature and type of the Bio-Medical Waste, segregation, storage, colour bag, treatment and disposal	335
9.8.1.1 Existing scenario of the Bio-Medical Waste management and disposal in the Government hospitals	336
9.8.1.2 Situational analysis in the Government Hospitals	337
9.8.1.3 Existing scenario of the Bio-Medical Waste management and disposal in the Private Hospitals	337
9.8.1.4 Situational analysis in the Private Hospitals	338

9.8.1.5 Existing scenario of the Bio-Medical Waste management and disposal in the Nursing Homes	339
9.8.1.6 Situational analysis in the Nursing Homes	340
9.9 A comparative study	340
9.10 Awareness regarding training, storage timings, segregation as per colour coding, autoclaving, disposal of used needle etc.	341
9.10.1 The scenario in the Government Hospitals	342
9.10.1.1 Situational analysis in the Government Hospitals	342
9.10.2 The scenario in the Private Hospitals	343
9.10.2.1 Situational analysis in the Private Hospitals	344
9.10.3 The scenario in the Nursing Homes	344
9.10.3.1 Situational analysis in the Nursing Homes	345
9.11 A comparative study	345
9.12 Disposal of Bio-Medical Waste in the Government and private hospitals and in the nursing homes	346
9.12.1 Knowledge about the disposal scenario in the Government Hospitals	346
9.12.1.1 Situational analysis in the Government Hospitals	347
9.12.2 Knowledge about the disposal scenario in the Private Hospitals	348
9.12.2.1 Situational analysis in the Private Hospitals	348
9.12.3 Knowledge about the disposal scenario in the Nursing Homes	349
9.12.3.1 Situational analysis in the Nursing Homes	349
9.13 A comparative study	350
9.14 Quantity of Bio-Medical Waste generation and its disposal: Relationship	351
9.15 Assessment of practices on Bio-Medical Waste disposal in the health care institutions in the Siliguri Town	352
9.15.1 Government Hospitals	352
9.15.2 Private Hospitals and Nursing Homes	353
9.16 Final disposal of the Bio-Medical Waste by the Greenzen Bio Pvt. Ltd. at Fulbari, Jalpaiguri	354
9.17 An Overview	355

CHAPTER X

CONCLUSION & RECOMMENDATIONS 356-371

<i>List of Cases</i>	vii-x
<i>Annexure</i>	xi-xiii
<i>Bibliography</i>
