

## LIST OF FIGURES

<b>Fig. No.</b>	<b>Name of the figure</b>	<b>Page No.</b>
3.1	Distribution of STPs	46
3.2	Educational Qualification of the Respondents	48
3.3	Age -profile of the sample growers	49
3.4	Break-up of small tea growers according to their previous occupation	52
3.5	Break-up of small tea growers according to their additional occupation	52
3.6	Break-up of small tea growers according to their source of finance	55
3.7	Break-up of small tea growers according to their holding sizes	57
3.8	Break-up of small tea growers according to amount of area	57
3.9	Location-specific Break-up of total land area	60
3.10	Break-up of wasteland across locations	61
3.11	Break-up of crop-replacing land across locations	61
3.12	Break-up of land possession across locations	63
3.13	Break-up of own land possession across locations	63
3.14	Break-up of acquired land possession across locations	64
3.15	Distribution of owned land	65
3.16	Distribution of acquired land	66
3.17	Break-up of labour days as per land holding size	68
3.18	Break-up of hired days across land holding size	69
3.19	Break-up of hired labour days between male and female categories	70
5.1	Scale Efficiency	98
6.1	Input-oriented efficiency	110
6.2	Output-oriented efficiency	111
6.3	Production Functions/Frontiers	112
6.4	The percentage distribution of technical efficiencies within the sample	118

6.5	Region wise Mean Efficiency of Yield for the study regions	119
6.6	Efficiency according to size of tea gardens	121
7.1	Changes in production, labour, and land during 1990-2013	126
7.2	Profile of Small Growers	127
7.3	Break-up of tea production according to type of green leaf	131
7.4	Percentage of gardens resorting to leaf sourcing in the tea growing regions	131
