LIST OF TABLES

Table1.1 Geological Sequence of Darjiling District 3

Table 1.2 Rainfall records of the four rain gauge stations 12

Table 2.1 Distinguishing Anatomical and Chemical Characters of the Three Races of Tea (After Barua, 1963) 24

Table 2.2 Doses of NPK mixture per hectare 35

Table 2.3 Spray Volumes for different herbicides to cover uniform weed infestation of one hectare 43

Table 2.4 Effect of Pruning on Crop Productivity 50

Table 2.5 Effects of Time of Pruning on Yield 50

Table 2.6 Distribution of crops under different types of Pruning/ Skiffing 51

Table 2.7 Pattern of ownership of the Tea Estates 60

Table 2.8 Management of a Tea Estate 61

Table 3.1 Classification of gross tea area in hectares 66

Table 3.2 Classification of tea gardens under mature tea 67

Table 3.3 Classification of tea gardens under young tea area 68

Table 4.1 Tea production by country – 2000 73

Table 4.2 Tea Producing Countries 74

Table 4.3 Orthodox Method 78

Table 4.4 Process of green tea 81

Table 4.5 Size of Meshes 85

Table 4.6 Primary Marketing of Tea during 1992 – 94 86

Table 4.7 Cost of Production 88

Table 4.8 Proportion of cost investment in a tea garden 88

Table 4.9 Distribution of Mandays 89

Table 4.10 Classification of tea garden and their percentage, to auction sale average (CTC) for Sale from Sale: 01' 2003 to Sale: 31' 2003 89

Table 4.11 Classification of tea gardens and their percentage to auction sale average (Dust) from 01' 2003 To Sale 31' 2003 90

Table 4.12 Indian tea production & exports 93

Table 4.13 Tea exports from India 93

Tabel 4.14 Tea Imports into India 95

Table 5.1 Range of Population of tea gardens in Naksalbari P.S 100

Table 5.2 Range of Population of tea gardens in Phansidewa (P. S) 101

Table 5.3 Range of Population of tea gardens in Matigara (P. S) 102

Table 5.4 Density of population per hectare by range in the study area 104

Table 5.5 Classification of tea gardens on the basis of percentage of scheduled tribe population to total 105

Table 5.6 Classification of tea gardens on the basis of percentage of scheduled caste population to total 106

Table 5.7 Literacy rate in percentage to total population in the tea gardens 107

Table 5.8 Distribution of man days spent on different types of field operations (2003) 110

Table 5.9 Mandays spent on different types of factory operations (2003) 110

Table 6.1 Percentage distribution of workers on ideal family size by age of the workers 115

Table 6.2 Power supply in tea gardens 117

Table 6.3 Number of tea gardens and their distance from daily market 119

Table 6.4 Source of water available in the tea gardens 121

Table 6.5 Ration Calculation Chart / Tea Association 125

Table 6.6 Leave to the Staff 126

Table 7.1 Trends in intensity of work stoppages 130

Table 9.1 Employment figures of various industries 153

Table 9.2 Social security scheme for plantation workers 155
