

Acknowledgement

At the outset, I am extremely delighted to convey my most heartfelt gratitude to my respected teacher and Guide, Dr. Mahendra Nath Roy, Professor, Department of Chemistry, University of North Bengal, Darjeeling. Throughout my research period, I have received constant guidance, valuable suggestions, motivation and constructive criticism from him. I am deeply grateful to him for his keen interest, strong enthusiasm, constant encouragement and sympathetic consideration. Without his loving care, meticulous guidance and priceless supervision, the formulation of my work associated with my thesis in its present form could not have been possible.

I also express my profound sense of gratitude to all the respected teachers, Department of Chemistry, University of North Bengal for their priceless assistance and continual inspiration during the course of my research work. I am thankful to the non-teaching staff of my Department for their cooperation and help.

My thanks are extended to several labmates at the Department of Chemistry, with whom I have had longer or shorter enlightening discussions about the various topics of this work. My special thanks go to Dr. Rajani Dewan, Dr. Deepak Ekka, Mr. Milan Chandra Roy, Mr. Kanak Roy, Mr. Biswajit Dutta and Mr. Subhadeep Saha of my research laboratory for their valuable assistance and cooperation during my research work.

Acknowledgement

I owe a lot to my father Mr. Uday Sankar Choudhury and mother Mrs. Keya Choudhury, for their contributions to my career building and whose encouragement and help at every stage of my personal and academic life went a long way to the completion of this thesis. Most of all, I would like to thank my beloved wife Mrs. Sumana Das for her ceaseless inspiration, constant support and whole-hearted co-operation. The encouragement, inspiration and whole-hearted co-operation that I received from my sister, other family members and friends are most gracefully acknowledged.

I would like to thank my Principal Dr. Pijush Kumar Das, colleagues and office staff of Kaliyaganj College, where I am working as an Assistant Professor in Chemistry, for their support and encouragement in the course of my work.

I am constantly aware of what a huge debt I owe to the sources of the information required for my research work: the numerous books, monographs, articles, computer website, etc. I put on record some measure of my gratitude to those whose references I have cited in this thesis.

Finally, I would also like to record my thankfulness to the Departmental Special Assistance Scheme under the University Grants Commission, New Delhi [F. 540/12/DRS/2013 (SAP-I)] and the 'ONE TIME GRANT' [Ref No. F.4-10/2010(BSR)] awarded to my Supervisor, Prof. M. N. Roy, under Basic Scientific Research (BSR), UGC, New

Acknowledgement

Delhi for financial and instrumental assistance in connection with my research work. I am also grateful to the University authority for providing library and laboratory amenities, especially Computer Centre and University Scientific Instrumentation Centre (USIC) for helping me in my research.
