

General Introduction

	Page. No
1. A brief introduction of C-N bond	2
2. Objectives of the thesis	2

Chapter- I

One-pot Synthesis of Pyrazines from Ethylenediamine and 1, 2-Diketone or its Analogues.

Section-A

	Page . No
I .A. A brief review on pyrazine, synthesis and its applications	5
I .A.1. Pyrazine	5
I .A.2. Natural Occurance	8
I .A.3. Structure of pyrazine	13
I .A.4. Application of pyrazines	14
I .A.5. Method for the synthesis of pyrazine	14
I .A.6. Conclusion	24
I .A.7. References	25

Section-B

	Page No.
I .B. Present Investigation	28
I .B.1. Background of the present investigation	28

I .B.2. Result and discussion	30
I .B.3. Experimental	35
I .B.3.1. Reaction procedure and purification	35
I .B.3.2. Spectroscopic measurement	36
I .B.4. Conclusion	36
I .B.5. Characterization data	37
I .B.6. Supporting spectra	40
I .B.7. References	53

Section C

I .C. Present investigation	55
I .C.1. Background of the present investigation	55
I .C.2. Results and discussion	57
I .C.3. Experimental	64
I .C.3.1. Reaction procedure and purification	64
I .C.3.2. Spectroscopic measurement	65
I .C.4. Conclusion	65
I .C.5. Characterization data	66
I .C.6. Supporting spectra	66
I .C.7. References	68

Chapter II

Synthesis of Nitriles from Aldehydes and Hydroxylamine hydrochloride on silica-gel

Section A

	Page No.
II .A. A brief review on nitriles, synthesis and its application	72
II .A.1. Nitrile	72
II .A.2. Natural occurrence of organo nitriles	73
II .A.3. Structure of nitrile	73
II .A.4. Discovery of organo nitriles	74
II .A.5. Biological importance of nitriles	74
II .A.6. Application of nitriles in organic synthesis	75
II .A.7. Classical method for the synthesis of nitriles	77
II .A.7.1. Ammoxidation	77
II .A.7.2. Sandmeyer reaction	77
II .A.7.3. Rosenmund-Von Braun reaction	78
II .A.7.4. Hydrocyanation	79
II .A.8. Modern method for the synthesis of nitriles from different functional groups	79
II .A.8.1. Synthesis of nitriles from alcohols	79
II .A.8.2. Synthesis of nitriles from primary amine	81
II .A.8.3. Synthesis of nitriles from amides	82

II .A.8.4. Synthesis of nitriles from oximes	82
II .A.8.5. Synthesis of nitriles from azides	83
II .A.8.6. Synthesis of nitriles from alkenes, alkynes, methyl arenes and benzyl or allyl halides	84
II .A.8.7. Synthesis of nitriles from aldehydes	86
II .A.9. Application of silica-gel in organic transformations	87
II .A.10. Conclusion	89
II .A.11. References	90

Section B

	Page .No
II .B. Present Investigation	93
II .B.1. Background of the present investigation	93
II .B.2. Results and discussion	95
II .B.3. Experimental	99
II .B.3.1. Chemicals	99
II .B.3.2. Reaction procedure and purification	100
II .B.3.3. Spectroscopic measurement	101
II .B.4. Conclusion	101
II .B.5. Characterization data	101
II .B.6. Supporting spectra	105
II .B.7. References	120

Chapter-III

One-pot synthesis of 5-substituted-1H-tetrazole from aldehydes catalyzed by TiCl_3

Section A

	Page No
III. A. A brief review on tetrazoles, synthesis and its application	124
III.A.1. Tetrazole	124
III.A.2. Biological activities of tetrazoles	125
III.A.3. Application of tetrazoles in organic synthesis	126
III.A.4. Classical method for the synthesis of tetrazole	126
III.A.5. Modern methods for synthesis of tetrazole derivatives	127
III.A.5.1. Synthesis of tetrazoles from the reaction of cyanides with azides under different catalytic condition	127
III.A.5.2. Synthesis of tetrazole derivatives from the combination of oxime and azides	130
III.A.5.3. Synthesis of tetrazole derivatives from aldehydes	130
III.A.5.4. Synthesis of tetrazole derivatives from amine, hydrazides, isocyanides and primary alcohols	132
III.A.6. Conclusion	134
III.A.7. References	134

Section B

	Page No
III.B. Present Investigation	137
III.B.1. Background of the present investigation	137
III.B.2. Result and discussion	138
III.B.3. Experimental	143
III.B.3.1. Chemicals	143
III.B.3.2. Reaction procedure and purification	145
III.B.3.3. Spectroscopic measurement	145
III.B.4. Conclusion	145
III.B.5. Characterization data	146
III.B.6. Supporting spectra	149
III.B.7. References	158

	Page . No
Bibliography	161
Index	178

List of tables

Chapter- I

Entry	Table No	Title of tables	Page No.
1	I .A.1.	Occurance of pyrazine in plant	9
2	I .A.2.	Occurance of pyrazine in animal	10
3	I .A.3.	Occurance of pyrazine in food	11
4	I .B.1.	Optimization of time (hr) for one-pot condensation of ethylenediamine (1mmol) with benzil (1mmol)	32
5	I .B.2.	Optimization of proportion of ethylenediamine With benzil	32
6	I .B.3.	Condensation of ethylenediamine with 1,2-dicarbonyl Compound or with α -hydroxy or α -bromo ketone at rt	33
7	I .C.1.	Optimization of time (hr) for silica-gel catalyzed One-pot condensation of ethylenediamine with benzil	59
8	I .C.2	Optimization of reaction condition for the synthesis of pyrazine From ethylenediamine and benzil catalyzed by silica-gel	60
9	I .C.3.	Silica-gel catalyzed condensation of ethylenediamine with 1, 2-dicarbonyl compound or with α -hydroxy or α -bromo ketone	61
10	I .C.4.	Recycling of the silica-gel tested with ethylenediamine and Benzil in one-pot reaction	64

Chapter- II

Entry	Table No	Title of the tables	Page No.
1	II .B.1	Optimization of temperature	96
2	II .B.2	Optimization of catalyst	96
3	II .B.3	Synthesis of nitriles from aldehydes on silica-gel	97
4	II .B.4	Chemicals required for present Investigation	99

Chapter- III

Entry	Table No	Title of the table	Page No.
1	III .B.1	Effect of temperature on the synthesis of 5-substituted-1H-tetrazole	140
2	III .B.2	Effect of solvent on the synthesis of 5-substituted-1H-tetrazole	140
3	III .B.3	Effect of catalyst loading for the synthesis of 5-substituted-1H-tetrazole	141
4	III .B.4	Synthesis of 5-substituted-1H-tetrazole	141
5	III .B.5	Chemicals required for the present investigation	144

List of figures

Chapter I

Entry	Figure No	Title of figure	Page No
1	I .A.6	Finally accepted structure of pyrazine	7
2	I .A.7	Biologically important pyrazine derivatives	7
3	I .A.8	Resonance structures of pyrazine	13
4	I .B.6.1	^1H NMR spectrum of 2,3-diphenyl pyrazine	40
5	I .B.6.2	^{13}C NMR spectrum of 2,3-diphenyl pyrazine	40
6	I .B.6.3	^{13}C NMR spectrum of 2,3-bis-(4-methoxy phenyl)pyrazine	41
7	I .B.6.4	^1H NMR spectrum of 2, 3-bis-(4-methoxy phenyl)pyrazine	41
8	I .B.6.5	^{13}C NMR spectrum of 2, 3-dip-tolyl pyrazine	42
9	I .B.6.6	^1H NMR spectrum of 2, 3-dip-tolyl pyrazine	43
10	I .B.6.7	^{13}C NMR spectrum of 2-methyl-3-phenyl pyrazine	43
11	I .B.6.8	^1H NMR spectrum of 2-methyl-3-phenyl pyrazine	44
12	I .B.6.9	^{13}C NMR spectrum of 2, 3-diphenyl-5-methyl pyrazine	44
13	I .B.6.10	^1H NMR spectrum of 2, 3-diphenyl-5-methyl pyrazine	45
14	I .B.6.11	^{13}C NMR spectrum of 2, 3-bis(4-methoxyphenyl)-5-Methyl pyrazine	45
15	I .B.6.12	^1H NMR spectrum of 2, 3-bis(4-methoxyphenyl)-5-Methyl pyrazine	46
16	I .B.6.13	^{13}C NMR spectrum of 5, 6-diphenyl pyrazine-2, 3-dicarbonitrile	47

17	I .B.6.14	¹ H NMR spectrum of 5, 6-diphenyl pyrazine-2, 3-dicarbonitrile	47
18	I .B.6.15	¹³ C NMR spectrum of 5, 6-dip-tolylpyrazine-2,3-dicarbonitrile	48
19	I .B.6.16	¹ H NMR spectrum of 5, 6-dip-tolylpyrazine-2, 3-dicarbonitrile	48
20	I .B.6.17	¹ H NMR spectrum of 5-methyl-6-propioprazine-2, 3-dicarbonitrile	49
21	I .B.6.18	¹³ C NMR spectrum of 5-methyl-6-propioprazine-2, 3-dicarbonitrile	49
22	I .B.6.19	¹ H NMR spectrum of 2, 3-diethyl-5-methyl pyrazine	50
23	I .B.6.20	¹³ C NMR spectrum of 2, 3-diethyl-5-methyl pyrazine	50
24	I .B.6.21	¹ H NMR spectrum of 2-methyl-3-propyl pyrazine	51
25	I .B.6.22	¹³ C NMR spectrum of 2-methyl-3-propyl pyrazine	51
26	I .B.6.23	¹ H NMR spectrum of 2, 3-di-(furan-2-yl)-5-methylpyrazine	52
27	I .B.6.24	¹³ C NMR spectrum of 2, 3-di-(furan-2-yl)-5-methylpyrazine	52
28	I .C.6.1	¹ H NMR spectrum of 1, 4-pyrazine derivative of friedelin	66
29	I .C.6.2	¹ H NMR spectrum of 1, 4-pyrazine derivative of friedelin	67
30	I .C.6.3	¹³ C NMR spectrum of 1, 4-pyrazine derivative of friedelin	67

Chapter- II

Entry	Figure No	Title of figure	Page No
1	II .A.1	Milrinone	72
2	II .A.2	Mandelonitrile	73

3	II .A.3	Structure of nitrile	73
4	II .A.4	Some biologically important nitrile drugs	75
5	II .B.6.1	¹ H NMR spectrum of 4-hydroxy-3-methoxy-benzonitrile	106
6	II .B.6.2	¹³ C NMR spectrum of 4-hydroxy-3-methoxy-benzonitrile	106
7	II .B.6.3	IR spectrum of 4-hydroxy-3-methoxy-benzonitrile	107
8	II .B.6.4	¹ H NMR spectrum of 4-hydroxy benzonitrile	107
9	II .B.6.5	¹³ C NMR spectrum of 4-hydroxy benzonitrile	108
10	II .B.6.6	¹ H NMR spectrum of 4-dimethylamino-benzonitrile	108
11	II .B.6.7	¹³ C NMR spectrum of 4-dimethylamino-benzonitrile	109
12	II .B.6.8	¹ H NMR spectrum of 4-methoxy-benzonitrile	109
13	II .B.6.9	¹³ C NMR spectrum of 4-methoxy-benzonitrile	110
14	II .B.6.10	IR spectrum of 4-methoxy-benzonitrile	110
15	II .B.6.11	¹ H NMR spectrum of 3-nitro-benzonitrile	111
16	II .B.6.12	¹³ C NMR spectrum of 3-nitro-benzonitrile	111
17	II .B.6.13	¹ H NMR spectrum of cinnamonitrile	112
18	II .B.6.14	¹³ C NMR spectrum of cinnamonitrile	112
19	II .B.6.15	¹ H NMR spectrum of Heptanenitrile	113
20	II .B.6.16	¹³ C NMR spectrum of Heptanenitrile	113
21	II .B.6.17	¹ H NMR spectrum of p-nitro-benzonitrile	114
22	II .B.6.18	¹³ C NMR spectrum of p-nitro-benzonitrile	114
23	II .B.6.19	¹ H NMR spectrum of benzonitrile	115
24	II .B.6.20	¹³ C NMR spectrum of benzonitrile	115
25	II .B.6.21	¹ H NMR spectrum of 2-hydroxy benzonitrile	116

26	II .B.6.22	¹³ C NMR spectrum of 2-hydroxy benzonitrile	116
27	II .B.6.23	¹ H NMR spectrum of 3-methoxy benzonitrile	117
28	II .B.6.24	¹³ C NMR spectrum of 3-methoxy benzonitrile	117
29	II .B.6.25	¹ H NMR spectrum of 2-hydroxy-3-methoxy benzonitrile	118
30	II .B.6.26	¹³ C NMR spectrum of 2-hydroxy-3-methoxy benzonitrile	118
31	II .B.6.27	¹ H NMR spectrum of Napthalene-1-carbonitrile	119
32	II .B.6.28	¹³ C NMR spectrum of Napthalene-1-carbonitrile	119

Chapter-III

Entry	Figure No	Title of figure	Page No
1	III .A.1	Tetrazole	124
2	III .A.2	Example of tetrazole containing drugs	125
3	III .B.6.1	¹³ C NMR spectrum of 5-phenyl-1H-tetrazole	150
4	III .B.6.2	¹³ C NMR spectrum of 5-(4-nitrophenyl)-1H-tetrazole	150
5	III .B.6.3	¹³ C NMR spectrum of 5-(3-nitrophenyl)-1H-tetrazole	151
6	III .B.6.4	¹³ C NMR spectrum of 2-(1H-tetrazole-5-yl)phenol	151
7	III .B.6.5	¹ H NMR spectrum of 2-(1H-tetrazole-5-yl)phenol	152
8	III .B.6.6	¹³ C NMR spectrum of 4-(1H-tetrazole-5-yl)phenol	152
9	III .B.6.7	¹ H NMR spectrum of 4-(1H-tetrazole-5-yl)phenol	153
10	III .B.6.8	¹³ C NMR spectrum of 5-(4-fluorophenyl)-1H-tetrazole	153
11	III .B.6.9	¹ H NMR spectrum of 5-(4-fluorophenyl)-1H-tetrazole	154

12	III.B.6.10	¹³ C NMR spectrum of 5-(4-methoxyphenyl)-1H-tetrazole	154
13	III.B.6.11	¹³ C NMR spectrum of 5-(N,N-dimethyl-4-phenyl)-1H-tetrazole	155
14	III.B.6.12	¹ H NMR spectrum of 5-(N,N-dimethyl-4-phenyl)-1H-tetrazole	155
15	III.B.6.13	¹³ C NMR spectrum of 15-(naphthalene-3-yl)-1H-tetrazole	156
16	III.B.6.14	¹ H NMR spectrum of 15-(naphthalene-3-yl)-1H-tetrazole	156
17	III.B.6.15	¹³ C NMR spectrum of 5-(furan-2-yl)-1H-tetrazole	157
18	III.B.6.16	¹ H NMR spectrum of 5-(furan-2-yl)-1H-tetrazole	157

List of Schemes

Chapter I

Entry	Scheme No.	Title of scheme	Page No.
1	I .A.1	Synthesis of α -benzalamino-phenylacetonitrile	13
2	I .A.2	Synthesis of isoindol	14
3	I .A.3	Synthesis of substituted isoindol	15
4	I .A.4	Synthesis of nitrosoethylacetone	16
5	I .A.5	Oeconomides' s synthesis of pyrazine derivatives	18
6	I .A.6	Hinsberg' s method for the synthesis of benzopyrazine	18
7	I .A.7	Mason' s synthesis of pyrazine	19
8	I .A.8	Gutknecht' s method for synthesis of pyrazine	20
9	I .A.9	Gastaldi' s synthesis of pyrazine	20
10	I .A.10	Reaction of 2, 3-diamino-3-phenylthioacrylonitrile with 2, 2-diethoxy acetophenone.	21
11	I .A.11	Synthesis of pyrazine by copper chromite	21
12	I .A.12	Synthesis of pyrazine by FeCl_3	21
13	I .A.13	Catalytic formation of pyrazine by Richard	22
14	I .A.14	Synthesis of pyrazine by 2H-azirines with α -diazo oxime-ethers by N.S.Y.Loy et.al	22
15	I .A.15	Synthesis of benzopyrazine by Hazarika et.al	22
16	I .A.16	Synthesis of quinoxaline by Mahadik et.al	23
17	I .A.17	Straight forward synthesis of pyrazine	23

18	I .A.18	Green approach for synthesis of pyrazine by Ghosh and Mandal	24
19	I .B.1	One-pot condensation of ethylenediamine with 1,2-diketone Or with analogues resulting pyrazine	31
20	I .C.1	Silica-gel mediated one-pot synthesis of pyrazines from ethylenediamine and 1,2-diketone or their analogues	57
21	I .C.2	Plausible mechanism for the synthesis of pyrazine derivatives using moistened silica-gel	59

Chapter II

Entry	Scheme No.	Title of scheme	Page No.
1	II .A.1	Synthesis of 3, 5-diaryl-1,2,4-thiadiazoles from aryl nitriles	76
2	II .A.2	Reaction of benzonitrile with sodium azide in DMF	76
3	II .A.3	Synthesis of amides from nitriles	76
4	II .A.4	Synthesis of esters from nitriles	77
5	II .A.5	Synthesis of acrylonitrile from propene	77
6	II .A.6	Synthesis of nitrile from aryl diazonium salt and KCN by Cu catalyst	78
7	II .A.7	Synthesis of nitrile from aryl halide and CuCN	78
8	II .A.8	Synthesis of adiponitrile from 1,3-butadiene	79
9	II .A.9	Synthesis of benzylic alcohol to α -nitrile	80
10	II .A.10	Direct synthesis of nitriles from alcohol by TEMPO	80

11	II .A.11	Synthesis of nitriles alcohols by DIH	81
12	II .A.12	Synthesis of oxidant-free nitriles from primary amines	81
13	II .A.13	Oxidative transformation of primary amine to nitriles by Ru/Al ₂ O ₃ catalyst	82
14	II .A.14	Synthesis of nitriles from amides using silanes	82
15	II .A.15	Synthesis of nitriles from oximes under neat condition	83
16	II .A.16	Synthesis of nitriles from oximes	83
17	II .A.17	Synthesis of nitriles from azides by Ru(OH) _x /Al ₂ O ₃ catalyst	84
18	II .A.18	Synthesis of aryl nitriles from methyl arenes	84
19	II .A.19	Synthesis of nitriles from alkenes	85
20	II .A.20	Synthesis of nitriles from alkynes	85
21	II .A.21	Synthesis of nitriles from allyl or benzyl halides	86
22	II .A.22	Synthesis of nitriles from aldehydes by NaN ₃	86
23	II .A.23	Synthesis of nitriles from aldehydes through transoximation	87
24	II .A.24	Synthesis of nitriles from aldehydes by choline chloride and urea mixture(1:2)	87
25	II .A.25	Synthesis of quinoxalines from benzil with 1,2-diamine	88
26	II .A.26	Synthesis of 1,2,4,5-tetra substituted imidazoles catalyzed by HClO ₄ -SiO ₂	88
27	II .A.27	Synthesis of acenaphtho[1, 2-b]furan derivatives by silica- Supported ionic liquid	89
28	II .B.1	Synthesis of nitriles from aldehydes and hydroxylamine hydrochloride on silica-gel	95

Chapter III

Entry	Scheme No.	Title of scheme	Page No.
1	III.A.1	Synthesis of tetrazole by hydrazoic acid with cyanide	126
2	III.A.2	Synthesis of 5-substituted-1H-tetrazole catalyzed by Zn/Al hydrotalcite	128
3	III.A.3	Synthesis of tetrazoles catalyzed by boron azide	128
4	III.A.4	Synthesis of 5-aryl-1H-tetrazole catalyzed by Activated Fuller's earth	128
5	III.A.5	Synthesis of 1,5-substituted tetrazole by Pd catalyzed Suzuki coupling	129
6	III.A.6	Synthesis of 2-aryl tetrazole by aryl diazonium salt	129
7	III.A.7	Synthesis of 5-substituted tetrazole catalyzed by La(OTf) ₃	129
8	III.A.8	Synthesis of tetrazoles by trimethylsilylazide	130
9	III.A.9	Synthesis of 5-substituted-1H-tetrazole from oxime, catalyzed by Cu(OAc) ₂	130
10	III.A.10	Synthesis of 5-substituted-1H-tetrazole from oxime, Catalyzed by InCl ₃	130
11	III.A.11	Synthesis of tetrazole derivatives from aldehyde, hydroxylamine hydrochloride, sodium azide in presence of P ₂ O ₅	131
12	III.A.12	Synthesis of 5-substituted 1H-tetrazole from aldehyde,	131

		Malononitrile and sodium azide in aqueous medium	
13	III.A.13	Synthesis of 5-substituted-1H-tetrazole from aldehydes, Hydroxylamine hydrochloride and TBAA in presence Of nano-Cu ₂ O-MFR	132
14	III.A.14	Synthesis of 1-aryl-1H-1,2,3,4-tetrazole catalyzed by Cu NPs/bentonite	132
15	III.A.15	Synthesis of 1-substituted 1H-1,2,3,4-tetrazole by ZnS NPs under ultrasound irradiation	133
16	III.A.16	Synthesis of 1,5-disubstituted α -hydrazino- Tetrazoles by four-components reaction	133
17	III.A.17	One-pot transformation of primary alcohol Into tetrazole derivatives	134
18	III.B.1	TiCl ₃ catalyzed one-pot protocol for the conversion Of aldehydes into 5-substituted-1H-tetrazole	139
19	III.B.2	Proposed reaction intermediate for the synthesis of 5-substituted-1H-tetrazole	139
