

ACKNOWLEDGEMENTS

I deem it a great privilege to express my profound respects, deep gratitude and sincere thanks to Dr. Suman Sao, Associate Professor, Department of Geography and Applied Geography, University of North Bengal, for her advice, supervision and guidance from the very early stage of this research work. She has played a significant role in shaping both my research and my way of thinking. I owe, indeed, a great deal to her for the constant encouragement and inspiration she bestowed on me throughout the entire research period.

I extend my sense of gratitude to all my respected teachers and staff of the Department of Geography and Applied Geography, University of North Bengal for their concern and co-operation in all the matters.

No research is possible without a library, the centre of acquiring knowledge. I express my gratitude to all the library staff, University of North Bengal for the services provided to me.

I am greatly thankful to my ex-student Sri Somnath Chatterjee who helped me a lot while preparing the maps using GIS software. My thanks are also due to my ex-student Sri Soupayan De Sarkar and Sri Debraj Mandol who helped me in many ways from the beginning of the research work. Sri Kanailal Basfore, laboratory attendant, Birpara College, deserves special thanks for providing a great service during the time of field survey.

I extend thanks to all the other intellectuals, academicians, scholars and professionals who directly or indirectly made academic / intellectual contributions towards enrichment of my thesis.

I owe a lot to my parents, who encouraged and helped me at every stage of my personal and academic life and longed to see this achievement come true. I deeply miss my father, who is not with me to share this joy.

Finally, I take this opportunity to thank my wife Malasree and daughter Meghna, each of whom extended whole hearted support and co-operation and made contributions in their own way during the entire period of my research.
