

Acknowledgement

This thesis is a compilation of my research work carried out under the supervision of Prof. Pranab Ghosh, Professor, Department of Chemistry, University of North Bengal during the period of 2013 to 2018. It comprises with the studies of C-hetero bond forming reaction.

The successful completion of my research work is credited to the guidance of my esteemed supervisor Prof. Pranab Ghosh, Professor, Department of Chemistry, University of North Bengal, without whose help and support I would have never finished my research work successfully and would remain as a dream. I offer my heartfelt gratitude for his valuable suggestions and for his support. Therefore, I consider it as a great honor to work with Prof. Pranab Ghosh.

This thesis is a culmination of all the courses and experiments that I pursued during the tenure of my research work at the Department of Chemistry, University of North Bengal (NBU). I would therefore like to thank all the faculty members of the Department of Chemistry, University of North Bengal who have greatly supported me during my research work. I would like to extend my sincere thanks to all the non-teaching staff of the Department of Chemistry, University of North Bengal, for helping me in all possible ways.

I wish to express my sincere gratitude to UGC-BSR, New Delhi, for financial assistance without which, I would not have been able to pursue my research work properly and uninterruptedly.

I would like to express my heartfelt gratitude to Dr. Biswajit Sinha, Associate Professor, Department of Chemistry, University of North Bengal for helping me in my research concern.

I am truly indebted to my lab-mates and all fellow researchers whose constant concerns, support, guidance and encouragement have always helped me to be a better person and I take an opportunity to thank all my fellow friends for the encouragement that they have given me.

I owe my deepest gratitude to my father and mother who have always believed in me for the work that I have undertaken and have persuasively conveyed a spirit of doing good research work in my life. The greatest source of encouragement and perpetual support has been my family members who have made it possible for me to pursue my academic journey. I shall always remain indebted to them.

In addition, a sincere thanks to all my friends, sisters and brothers of North Bengal University, for always being there for me and helping me in all possible ways.
