

LIST OF TABLES

	Description	Page
Table 1	Toll like receptors and their ligands	10
Table 2	Demographic profile of the studied populations	50
Table 3	Demographic profile of the Disease samples	55
Table 4	List of primers for the 10 TLR alleles in human	62
Table 5	Observed carrier frequencies (OFs) and the estimated gene frequencies of the 10 TLR genes in the four study populations.	72
Table 6	Chi square (χ^2) values of different populations and their comparison (Kyplot beta ver-2.0).	73
Table 7	Nei's Genetic distances of four populations using POPGENE (Ver- 1.32) software.	75
Table 8	Demographic data and clinical characteristics of RA patients and control groups (Guha <i>et.al.</i> , 2018)	77
Table 9	Gene frequencies of the 10 TLR genes among Rheumatoid arthritis patients and with the control	78
Table 10	Observed frequencies of the 10 TLR genes in the Rheumatoid arthritis patients and control	79
Table 11	Risk ratio and odd ratio for ten different TLRs in association with Rheumatoid arthritis.	80
Table 12	Diagnostic test values for Rheumatoid arthritis patients based on bayer's theorem.	81
Table 13	Observed frequencies of the 10 TLR genes in the control and patients of typhoid fever.	82
Table 14	Risk ratio and odd ratio for ten different TLRs in association with typhoid fever.	84
Table 15	Widal test result of the positive typhoid samples	85
Table 16	Diagnostic test values for typhoid patients based on baye's theorem	85

Table 17	Gene frequencies of the 10 Human TLR genes in the control and patients and measurement of relative risk.	90
Table 18	CD4+marker test result of HIV patients	92
Table 19	Risk ratio and odd ratio for ten different TLRs in association with HIV patient	91
Table 20	Diagnostic test values for HIV patients based on baye's theorm	92
