

ACKNOWLEDGEMENT

At the very outset I would like to extend my sincere thanks and gratitude to a number of people without whose help and guidance this thesis would not have been possible. The work presented in this thesis has been possible only for their priceless support and motivation.

I would like to start with the person who made the biggest difference in my life, my mentor and guide Dr. Mahendra Nath Roy, Professor, Department of Chemistry, North Bengal University, Darjeeling, West Bengal. He has always been there in front of my eyes for the last five and half years, motivating and inspiring every bit of me towards new possibilities in life. He has been a living role model to me. His grit and determination has always inspired me to thrive for excellence. Whenever I fumbled he came to my rescue with his intelligent ideas and comprehensive understanding to help me sail through. His attitude of living every moment as it comes, making wonderful observations and converting them into new possibilities has helped me come a long way and will always guide me in future. I would never find words to tell what I owe to him. So, thanks again for everything ,Sir...to me, you are ' perfection personified'.

I express my heartfelt gratitude to Professor Dr. Swapan Kr. Das and Dr. Pranab Ghosh for his constant motivation and support during the course of my thesis. I enjoyed the personal discussion with him and the valuable time I spent with him. My sincere thanks to Dr. Sajal Kr. Das and Dr. Rajesh Das for being with me as brotherly figure throughout. His scientific inputs, personal help and friendly nature has always made me feel at ease with him and I could always fall back on him for any support and help. The constant motivation and support from Dr. Subhadeep Saha, Dr. Suvankar Chowdhury and Dr. Kalipada Sarkar is also gratefully acknowledged.

I am also grateful to Prof. Anirban Misra, Head of the Chemistry Department and all other teachers and non-teaching staff of the Chemistry Department for allowing me to use their facilities including the lab instruments.

My acknowledgement will never be complete without the special mentions of my lab seniors who have given me great support, motivation during the initial days of my stay in the lab. My heartfelt thanks to my fellow lab mates Dr. Kanak Roy, Dr. Aditi Roy, Dr. Koyeli Das, Dr. Deepak Ekka and all research scholars for always being there and bearing with me the good and bad times during my days of PhD course. I would also like to thank all my seniors and juniors from the department of Chemistry, University of North Bengal.

I would like to thank Mr. Md Enamul Hoque, the Headmaster of Uttar Lakshmipur High School and all my colleagues for their constant support and encouragement, my elder brother Prakash Chandra Saha and my parents for their rock solid support and guidance.

Last but not the least, I must mention the name of my dear wife Smt. Banashree Sarkar who has always been the bedrock of support, motivation and inspiration and my two children whose smiling faces have always helped relieving the stress of my work.

BINOY CHANDRA SAHA
