

List of tables

Chapter 1

Table 1.1	<i>Structural relationship of smectic phases</i>	5
------------------	--	----------

Chapter 3

Table 3.1	<i>Phase sequence with transition temperatures of 1F3R</i>	70
------------------	--	-----------

Table 3.2	<i>X- ray data in SmE*(90°C), SmB*(110°C) and SmX*(123°C)phases</i>	82
------------------	---	-----------

Chapter 4

Table 4.1	<i>Phase sequence and transition temperatures of the compounds</i>	99
------------------	--	-----------

Table 4.2	<i>Lattice parameters of 2F3R and 3F3R in SmF*, SmG* and SmJ* phases.</i>	107
------------------	---	------------

Chapter 5

Table 5.1	<i>Transition temperatures of the compounds. Figures within parentheses denote cooling data.</i>	133
------------------	--	------------

Chapter 6

Table 6.1;	<i>Transition temperatures and thermal stability of SmC* phase of the compounds</i>	155
-------------------	---	------------

Chapter 7

Table 7.1	<i>Transition temperatures and thermal stability of SmC* phase of 7F3R</i>	177
------------------	--	------------

Table 7.2	<i>Molecular structure and phase transition temperatures of hosts</i>	191
------------------	---	------------

Table 7.3	<i>Phase sequence and transition temperature of the mixture</i>	192
------------------	---	------------

Chapter 8

Table 8.1	<i>Phase sequence of the compounds</i>	216
------------------	--	------------

Table 8.2	<i>Few selected parameters of the compounds</i>	223
------------------	---	------------
