

ACKNOWLEDGEMENT

I take this opportunity to express my first and foremost sincerest gratitude to my supervisor, Dr. Pranab Ghosh, Professor, Department of Chemistry, University of North Bengal, Darjeeling, who has supported me throughout my thesis with his patience and knowledge whilst allowing me the room to work in my own independent way. I have no heartfelt words actually to acknowledge him and how he helped me in solving different research problems serves as inspirations to me. His way of searching to get out of problems has made him as a constant oasis of ideas and passions in science, which exceptionally inspire and enrich my growth as a student, a researcher that I want to be. I am and will be thankful to him more than he knows. I could not have imagined having a better advisor and mentor for my Ph.D. study.

I express my sincere gratitude to Prof. Anirban Misra, Head of the Department of Chemistry, NBU.

I also express my sincere gratitude to Prof. M. N. Roy, Department of Chemistry, NBU.

I feel proud to have acquainted with all non-teaching staff that always stood beside me for their support.

I would like to thank my labmates Raju Da, Jayanta Da, Antara Di, Mainul Da, Gayan Da, Bittu Da, Hridoy Da, Bijeta, Suvodip, Puja Di, Aminul, Sourav, Kumaresh and others for their active co-operation throughout my research period.

I would also like to convey my special thanks to Prasun, Goutam, Suchandra, Prasanjit Da, Pranesh Da, Ananya Di, for their constant help and support. The story will remain incomplete if I fail to express my thanks to the Lab no.107,

Dept. of Chemistry, NBU where I have done my research work and my Laptop where I have made the draft of my thesis.

I am also thankful to UGC, New Delhi, for awarding me Junior Research Fellowship and Senior Research Fellowship and University of North Bengal for providing the infrastructural facilities.

Finally, this work would not have been possible without the blessings of my beloved parents Shri Suresh Chandra Singha and Smt. Anjali Singha and the support of my brother Janak Singha and sister Jayanti Singha who always stood by my side.

I would also take this opportunity to express my sincere apologies for any mistake on my part or any word or behaviour of mine that may have hurt anyone working with me.

Finally despite best of my efforts and sincerity I might have committed some unintentional errors and mistakes in my thesis. Suggestions and criticisms from learned professors will be thankfully accepted.

Thank you.
