

LIST OF FIGURES

Figure No.	Title	Page No.
Figure I.1.	Some known heterocyclic skeleton	3
Figure I.2.	Biologically active molecules having heterocyclic moiety	4
Figure II.1.	Tautomers of tetrazole	21
Figure II.2.	Biologically active compounds containing tetrazole moiety	21
Figure II.3.	Schematic approaches for synthesis of tetrazole derivatives from various synthons	23
Figure II.4.	Reusability of the catalyst	36
Figure II.5.	Scanned copy of ¹ H NMR of 2-(1 <i>H</i> -tetrazol-5-yl)phenol	43
Figure II.6.	Scanned copy of ¹³ C NMR of 2-(1 <i>H</i> -tetrazol-5-yl)phenol	44
Figure II.7.	Scanned copy of HRMS of 2-methoxy-6-(1 <i>H</i> -tetrazole-5-yl)phenol	45
Figure III.1.	Biologically active molecules containing nitrile moiety	49
Figure III.2.	Schematic approaches for synthesis of various organic compounds from nitrile	50
Figure III.3.	Approaches for synthesis of nitriles from various synthons	52
Figure III.4.	Scanned copy of FT-IR of benzonitrile	70
Figure III.5.	Scanned copy of ¹ H NMR of benzonitrile	71
Figure III.6.	Scanned copy of ¹³ C NMR of benzonitrile	72
Figure IV.1.	Structure of pyridine moieties	75
Figure IV.2.	Biologically potent molecule having nicotinonitrile moiety	75
Figure IV.3.	Scanned copy of ¹ H NMR of 2'-amino-6'-phenyl-[3,4'-bipyridine]-3'-carbonitrile	91
Figure IV.4.	Scanned copy of ¹³ C NMR of 2'-amino-6'-phenyl-[3,4'-bipyridine]-3'-carbonitrile	92
Figure V.A.1.	Bioactive molecules containing bis(indolyl)methane moiety	95
Figure V.A.2.	Recyclability experiment of catalyst	104
Figure V.A.3.	Scanned copy of ¹ H NMR of 3-((1 <i>H</i> -indol-3-yl)(phenyl)methyl)-1 <i>H</i> -indole	110

Figure V.A.4.	Scanned copy of ^{13}C NMR of 3-((1 <i>H</i> -indol-3-yl)(phenyl)methyl)-1 <i>H</i> -indole	111
Figure V.B.1.	Scanned copy of ^1H NMR of 4,4'-[(4-methoxyphenyl)methylene]bis(3-methyl-1-phenyl-1 <i>H</i> -pyrazol-5-ol)	129
Figure V.B.2.	Scanned copy of ^{13}C NMR of 4,4'-[(4-methoxyphenyl)methylene]bis(3-methyl-1-phenyl-1 <i>H</i> -pyrazol-5-ol)	130
Figure VI.A.1.	Biologically active compound having thioamide moiety	133
Figure VI.A.2.	Approaches towards the synthesis of thioamide from various substrates	134
Figure VI.A.3.	Scanned copy of ^1H NMR of (4-fluorophenyl)(pyrrolidin-1-yl)methanethione	151
Figure VI.A.4.	Scanned copy of ^{13}C NMR of (4-fluorophenyl)(pyrrolidin-1-yl)methanethione	152
Figure IV.B.1.	Synthesis of thiopyran molecules from two different starting materials	155
Figure VI.B.2.	Scanned copy of ^1H NMR of 2,6-diamino-4-phenyl-4 <i>H</i> -thiopyran-3,5-dicarbonitrile	167
Figure VI.B.3.	Scanned copy of ^{13}C NMR of 2,6-diamino-4-phenyl-4 <i>H</i> -thiopyran-3,5-dicarbonitrile	168
