

ACKNOWLEDGEMENT

This work is a culmination of constant source of inspiration and support of many persons. I would like to take this opportunity to express my gratitude to those persons.

First of all, I would like to express my sincere gratitude to my honorable supervisor Prof. Pranab Ghosh, Department of Chemistry, University of North Bengal, Darjeeling, for his active guidance and supervision, valuable advice, constant encouragement and motivation following which this work came to my life. I am blessed to have such a kind person as my supervisor.

I am thankful to the Head, Department of Chemistry, University of North Bengal and all the faculty members, non-teaching staff of this department for their co-operation throughout this time.

I am thankful to Dr. Mayukh Deb, Microanalyst, Department of Chemistry for his ideas and support regarding compound characterization.

I would like to thank my labmates Rabindranath, Raju Da, Puja Di, Bittu Da, Hridoy da, Aminul, Manishita Di, Kumaresh, Sourav, Dinabandhu and others for their active co-operation throughout my research period.

I would like to express my special gratitude to Gyan Da for his constant help, support and inspiration throughout my Ph.D. journey and thesis work. I would also like to thank my labmate cum brother Suvodip. Without them this journey was quite difficult for me.

I would like to thank my friends Suchandra and Prasun for their enormous help during this journey and lab work and my friend Tandra for her constant mental support and motivation.

I would like to thank Prasanjit Da, Pranesh Da, Mossaraf Da, Ananya Di, Gautam and all other scholars with whom I have worked or shared ideas during this time.

The story will remain incomplete if I fail to express my thanks to the Lab no. 107, Department of Chemistry, NBU where I have done my research work and my Laptop where I have made the draft of my thesis.

I am also thankful to CSIR, New Delhi, for awarding me Junior Research Fellowship and Senior Research Fellowship and University of North Bengal for providing the infrastructural facilities.

Finally, this work would not have been possible without the blessings and support of my beloved parents Smt. Shila Mitra and Sri Biman Kumar Mitra who always stood by my side and kept trust on me during my higher studies.

I would also take this opportunity to express my sincere apologies for any mistake on my part or any word or behavior of mine that may have hurt anyone working with me.

Finally despite best of my efforts and sincerity I might have committed some unintentional errors and mistakes in my thesis. Suggestions and criticisms from learned professors will be thankfully accepted.

Thank you.

Bijeta Mitra
