

ACKNOWLEDGEMENT

This work is the product of many years of dedication and hard work which was constantly made alive with the support and encouragement of my supervisor Prof. Swatahsiddha Sarkar. I am grateful to him for his guidance, his personal specialization on the area and his interest on the Himalaya that kept me updated with the contemporary literature on my work. He helped me think and understand the reality beyond the surface level, which is his expertise and this was possible for me only with his mentorship. The memory is still fresh where the appreciation to my write ups and comments given by my supervisor instilled more enthusiasm in me to go forward with my work. I would like to thank him for making me work. I am indebted to him.

I am thankful to my parents my family who never fail to motivate me to carry forward my work. I acknowledge my sincere 'thanks' to all my friends, elders and juniors to name a few Kumar, Karma, Babika di, Pema, Kunsang and many others.

I am grateful to my landlord (where I used stay during fieldwork) in Paiyong village Mr. Napu Bhutia (and his family) for accompanying me and guiding me for the village routes. The care and concern shown to me by him and his family as their own daughter made my field experience more homely. I will always remain thankful to them.

I would also thank late Mr Ramesh Tenchippa (Relli) who despite of his illness provided me with valuable information on Khambu culture, Mr Dipraj Rai (Mirik), Mr. Arun Prakash Rai (President KKRSS, Kalimpong), Mr. Meghraj Rai (Secretary KKRSS, Kalimpong), Sir Arun Tamkuley (21st Mile), Mr. Bhakta Rai and many others. I convey my heartfelt gratitude to all of them for lending their precious time to discuss on issues of my interest. I could complete this work only with the blessings and support provided by them. Thank you all.

SMRITI RAI
