

Acknowledgments

I feel greatly honoured to express my deepest and most sincere gratitude to my respected supervisor Dr. Rakesh Kumar Mandal, Associate Professor, Department of Computer Science & Application, the University of North Bengal for providing continuous encouragement, thought-provoking suggestions and thorough guidance throughout the work. His foresightedness helped me a lot to complete my thesis. Without his kind supervision, this work would not have been materialized.

I also express my thanks to all my teachers, colleagues, and fellow researchers for extending their valuable suggestions, and help throughout my work.

I would like to offer my special thanks to the University Authority and UGC for allowing me to carry out this work at this university.

I would like to express my gratefulness to my beloved parents, Shri Pinaki Maitra and Late Lila Maitra. Last but not the least, I am indeed indebted to my wife Smt. Tihi Moitra and my son Master Tirthadip Moitra for their constant support, encouragement, and patience, without which the thesis would not have been completed in time.
