

ACKNOWLEDGEMENT

It takes time, hardwork and perseverance to complete a Ph.D thesis. I am grateful to some people and Institutions who have been helpful during the time of my research and who have helped me complete my thesis directly or indirectly.

First and foremost, I would like to express my gratitude towards my supervisor, Dr. Palash Mandal for providing constant motivation, support and guidance not only in the field of my doctoral research but also in life. His valuable comments and advice have motivated me to study every topic of research in depth thus helped me complete my work with finesse. The energy and focus with which he works himself in the field of research has inspired me and I am sure inspires many other to work with the same enthusiasm and passion. I am fortunate to have worked under his supervision with a very hardworking and supportive team of researchers whom I consider a second family.

I am also grateful to all the Heads of the Department of Botany during the tenure of my research work for providing me with all the necessary requirements.

I would also like to thank all the teachers of Department of Botany, namely Prof. A.P. Das, Prof. B.N. Chakraborty, Prof. P. K. Sarkar, Prof. (Mrs) U. Chakraborty, Dr. A. Saha, Dr. A Sen, Dr. S.C. Roy and Dr. M. Chowdhury for their continuous support, help and encouragement. I would also like to thank the faculty in charge of SAP, Dr. U Chakraborty and Dr. A Saha for letting me utilize the facility and carry on my work smoothly.

Without the help of non-teaching staff, my work would have been impossible. Thus I express my heartfelt gratitude towards each of them for their help in different ways.

Identification of plants was a major step in my research work and I am indebted to Prof. A.P. Das (Former Professor) and Dr. M. Chowdhury (Assistant professor), Plant Taxonomy and Environmental Biology, Department of Botany, University of North Bengal for helping me with the identification of all the plants and for letting me submit my herbarium in NBU Herbarium.

My work would have been incomplete without the help of Prof. Ram Kumar Sahu, Professor, Department of Pharmacy, Columbia Institute of Pharmacy, Chhatissgarh, Raipur and Dr. Anoop Kumar, Asst. Professor, Department of Biotechnology, and Dr. Pranab Ghosh, Professor, Department of Chemistry, University of North Bengal for their valuable help during the course of my research work. I am highly grateful towards Prof. Ashis Nanda (former professor) Deptt. of Chemistry, University of North Bengal for helping me in NMR analysis and identification of phytochemicals. I am also thankful to SAIF, IIT Madras and SAIF, IIT Mumbai for mass spectroscopic analysis of bioactive fractions.

Teamwork is an important factor when it comes to work in a laboratory for research for so many years. I have been fortunate to have worked with an amazing team of researchers in Plant Physiology and Pharmacognosy Research Laboratory. Initially, I had worked with Dr. Mitali Ghosal, Dr. Saran Kumar Gupta and Dr. Sumira Mukhia as labmates and they had been very supportive and have a huge role to play in my thesis. Later, I came across a brilliant team of researchers, now labmates namely Mr. Sujoy Sen, Mr. Priyankar Roy, Mr. Dipayan Das,

Mr. Salman Haider, Ms. Divya Chauhan and Mr. Kushankur Sarkar who have been extremely helpful and cooperative during the tenure of my research. To emphasize few, I am very grateful to Dr. Saran Kumar Gupta specially, for being a great help in the initial days of my research with the basic practical work and experiments. Dr. Sumira Mukhia who I consider as a very good friend besides being a labmate, has been the biggest support both in my research work and in my life as well. Gratitude would be an understatement for her, I could have never done this with the same energy and focus without her. I would also like to emphasize the hardwork of my brothers Dipayan, Salman and sister Divya (more than labmates), I am highly indebted towards them for the practical help they have provided to complete my thesis.

One of the most challenging parts of my research was survey or field work. It was not possible without the kind and helpful herbals healers and their families because they are the pillars of this thesis. Thus, I would like to extend my sincere gratitude towards each and every traditional herbals healers of west Sikkim for sharing their valuable knowledge with me and helping me build the foundation of my thesis.

Fieldwork is a work of more than one person and I could have never completed it without the help of some important people from West Sikkim who went to the field along with me and provided me with all the necessary help that I required. They are my dear friend, Mr. Sunil Pradhan; brothers, Mr. Deven Subba, Mr. Ashish Subba, Mr. Prajul Pradhan, Mr. Keysor Thatal; my uncle, Mr. B.B. Subba and his family and Mr. Maitaman Subba and his family. I am extremely grateful to each one of them for their unconditional support.

I would also like to express my gratitude towards University Grants Commission (UGC) for funding this work under the scheme of "Rajiv Gandhi National fellowship" without which this research work could not be possible.

There are few people who might not have contributed in my thesis directly but they have supported me in each endeavours of my life and cheered me in my achievements. I am thankful to them for their love and constant support. They are my friends, Mrs. Palden Yanki Bhutia, Mrs. Dipsikha Rai, Ms. Bijaya Gurung and Mr. Biswas Thapa. I am also very grateful to Mr. Sujat Thapa for supporting and motivating me in my work and life as well.

Lastly, I would like to express my gratitude towards the most important people of my life, my family. From my grandparents, uncles and aunts to my cousins, I am thankful to all of them for their good wishes and support. To my parents, Mrs. Ganga Subba and Mr. Bejoy Kumar Subba who have always supported me in my decisions, provided me with the wings to soar high yet always assured me that they will be there if I ever fall, gratitude would be a small word for them, they are above all. My elder sister, Dr. Sareena Subba, who I look up to as a guiding force in my life, who inspires me every single day to be a brave and a better person, I am thankful to her for being my source of strength. My elder brother, Mr. Tufan Subba, I am grateful to him for his constant support and unconditional love.
