

ACKNOWLEDGEMENTS

It has been a long time since I started my work as a novice research worker of Biological science. The best chapter of my life is about to end when I am submitting this thesis in front of my very own Department. This period has been memorable, cherishable, informative, adventurous and sometimes frustrating, tiresome as well. Above all, it has been a contribution of so many people that made my Ph.D. period exciting and remarkable. This is the high time to say a thanks to all their contributions, no matter small or big, but immensely valued for sure.

In the very first phase, I would like to say thanks from the very core of my heart to my supervisor and mentor **Dr. Soumen Bhattacharjee**, Professor of the Department of Zoology, University of North Bengal. I thank him for considering me as his scholar. He once said, '**If you fail for a thousand times and then succeed for once, people will remember your success. Don't be afraid of failure; be opportunistic for a single success.**' It has been one of the best lessons I have ever found. Sir has been very amiable person with ever smiling face and a person with very strong sense of humour. His lucid and metaphorical jokes have always been an added flavour to our everyday lab work. With a very strong sense of the subject, he has been very hard working and energetic always when it is about research discussions and paper writing. Even formal discussion with him about the economy, psychology, current affairs and music has made a deep impact in my mind. He is probably the best man to control my extrovert-ness with intelligent mind.

I was lucky enough to come in contact with some of the very prime researchers of the time in the Department. I would like to mention the contribution of retired **Prof. Jaydeb Pal**, **Prof. Ananda Mukhopadhyay**, **Prof. Sudip Barat** from my Department as their expertise has made my knowledge ample about the subject. **Prof. Tapas Kumar Chaudhuri** has been instrumental in generating positive vibes in my research life through his vast knowledge and exposure all around the world. I am lucky to have him as my co-supervisor and his point-of-view on the different aspects of the subject has been a key to unlock mysteries. **Prof. Min Bahadur** has been so much kind to all of the researchers all the time. His student love and immense knowledge on classical genetics as well as population genetics has made a strong impact regarding the subject in my mind. **Dr. Dhiraj Saha** Sir has been very friendly. We have made

prolonged discussions in different times regarding different issues. He guided me to issues like neurobiology and ecology. My first international conference at Dhaka University in 2018 has become a sweeter memory because of his presence. **Dr. Tilak Saha** has been my college teacher as well in my early college days. I have been taught different aspects of biology by him. **Dr. Saurabh Mukherjee, Dr. Ritwik Mandal, Dr. Arpon Kr. Maiti and Dr. Subhraprakash Hui** are the other teachers I was introduced to at the later phases of my research career. I acknowledge their contributions in my research wherever needed. I also would like to acknowledge the teachers who have chaired the post of the **Head of the Department** of Zoology in different times.

My love towards the subject was initiated in my early college days. This subject affinity and the desire to be an academician someday was due to a person whom I first met in my college and later, that teacher-student chemistry enriched and that person became one of my favourite teachers, a very good friend and a valued guide of my life time. He is none but **Dr. Rahul Kumar Dutta**, WBES, Associate Professor, currently working in Jhargram College, West Bengal. Along with him, in this regard I would like to show my gratitude to my other college teachers of that time, **Late Bandhusundar Saha, Dr. Nilay Roy, Dr. Mayukh Sarkar, Dr. Samiran Ghosh, Mr. Sougata Ghosh, and Mr. Debojyoti Dutta**.

Mr. Amitava Roy was my first idol during my school days. He is a great teacher with finest smartness. He was the first who kept faith in me and made me believe that I can achieve great things in life. With this, I thank my teachers from Jenkins School, Cooch Behar; Specially our biology teacher **Mr. Subrata Chakraborty; Mr. Bhupal Roy and Mr. Surajit Dhar** have provided their immense support and inspiration in my early student days.

I also acknowledge the support I found from **Prof. Vasavaraj Madhusudhan**, Devangiri University, Karnataka; **Prof. Nripendranath Mandal**, Bose Institute, Kolkata; **Prof. Mousumi Poddar Sarkar**, Calcutta University, Kolkata; **Prof A. P Das**, Department of Botany, NBU and **Prof. A. K. Chakravorty** (Retd.), Department of Zoology, NBU. Interactions with them enriched my knowledge of science and resulted in some quality research papers. **Prof. Arnab Sen**, Professor in Botany, NBU is highly acknowledged for allowing me the usage of instruments in the Department of Tea Science, NBU. **Prof. M. N. Roy**, Department of Chemistry (currently the Vice Chancellor, Alipurduar University) has also supported by research in different times.

The research work would not have been possible without the co-operation and help extended by my lab mates. I am lucky enough to find a friendly environment dedicated to positivity all around. I sincerely thank my senior lab mates **Dr. Tanmay Mukhopadhyay**, **Ms. Sutanuka Chattaraj**, **Ms. Uttara Dey Bhowmick**, **Mr. Tanmoy Dutta**, **Mr. Sudipto kr. Roy** and **Mr. Sourav Sarkar** for providing me support and extended help during my research days. **Mr. Debabrata Modak** and **Ms. Najnin Islam** have helped me a lot in animal maintenance and experimental protocols in the laboratory. **Debabrata** especially has been the best company with excellence in my animal based studies and shares many ups and downs of the research period.

A group of very adventure lover and intelligent scholar friends is all I had during my free times during my research. Those adventure trips, tours and gossips provided me a lot of mental support and refreshment. They have been a part of my research discussions as well. Thanks to **Dr. Somit Dutta**, **Mr. Arnab Kumar Chakraborty**, **Dr. Priyankar Dey**, **Mr. Bappaditya Ghosh**, **Dr. Avishek Das**, **Dr. Ayan Roy**, **Dr. Pallab Kar**, **Dr. Arnab Saha**, **Mrs. Jayashree Saren**, **Ms. Ruksa Nur**, **Mrs. Swati Singh**, **Mrs. Trishita Mazumder**, **Dr. Minu Bharati**, **Ms. Priyanka Rai**, **Mr. Avishek Subba**, **Mr. Sagar Sarkar**, **Ms. Prerana Bhujel**, **Ms. Nilu Limbu**, **Mr. Amlan jyoti Ghosh**, **Mr. Rejwan Islam** and specially **Mr. Manas Pratim Modak**. **Dr. Pokhraj Guha** has inspired me a lot and helped me during the standardization of different molecular techniques.

I thank my room-mates **Mr. Jagannath Basu**, **Mr. Shubham Roy**, **Mr. Mrinal Ray** and **Mr. Sandip Karmakar**, for their brotherhood and continuous encouragement and support during my stay. I also appreciate the positive responses I found from **Mr. Biplab Das**, **Mr. Biman Krishna Saha**, **Mr. Niranjan Mandal**, **Mr. Anamitra Bhattacharjee**, **Mr. Biplab Dutta**, and **Mr. Pabitra Sarkar** during the tenure whenever needed.

I would like to mention the names of the faculty members of Siliguri College. **Dr. Tanushree Banerjee**, **Dr. Biplab Behera**, **Dr. Dipanjana Mazumder**, **Dr. Sukanta Mazumder** and **Dr. Sangita Khewa Subba** have helped me in all possible ways during my tenure as a faculty in the Siliguri College since 2018.

I am blessed to have **Mr. Swapan Kumar Paul** and **Mrs. Chinmoyee Paul** as my parents. They have provided me every comfort from the very next moment of my birth. I have

learnt all the best qualities from them. A special mention is needed for my wife **Ms. Priyanka Roy Chowdhury**, who is there for last few years in every situation. My parent in-laws **Mr. Ranjit Kumar Roy Chowdhury and Mrs. Popy Roy Chowdhury** have been there for me always with all kind of supports. My permanent loss in the name of Late. **Rupam Roy Chowdhury** has been a scar. My ever supportive brother-in-law will be missed and I will miss his guidance and support all through my life. My uncle **Dr. Prosanta Paul**, Assistant Professor, Department of Pharmaceutical Technology, NBU has provided my crucial support during my Ph.D.

I would like to thank the **Department of Zoology, University of North Bengal** for providing me the infrastructural support while some of my works are done in the **Department of Botany, Ballygunj Science College, Kolkata; Govt. Pharmacy College, Jalpaiguri and Bose Institute of Medicine, Kolkata**. I mention the vitality of the fellowship grant provided by the **UGC**, through **UGC-BSR Fellowship (appointment no 7/134-2007 BSR)** for the completion of my synopsis. The non-teaching staffs of the Department of Zoology, NBU and the different animal vendors are also acknowledged. Non-teaching staff of the Department **Mr. Sudam Das** has taken good care of the animal house facility of the department which should be mentioned.
