

CONTENTS

1. Scope and Object of the Thesis.	Page 1
2. Summary of the Chapters.	4
3. Introduction.	7
4. Chapter I: On Some Approximations of H-function and Their Applications in Line Contour Calculations.	59
5. Chapter II: Solution of the Equation of Transfer for Interlocked Multiplets by Sobolev's Probabilistic Method.	108
6. Chapter III: On the Calculations of Noncoherent Line Contours.	140
7. Chapter IV: Approximate Solution of Equation of Transfer with Eddington's Amended Approximation.	158.
8. General Bibliography.	171
9. Published Paper.	179
