

LIST OF TABLES

TABLE	PAGE
<p>1. Effect of various gas adsorption on the intensity of the weak low energy band system of <u>all-trans</u> β-carotene crystal film</p>	61
<p>2. Effect of various gas adsorption on the intensity of the weak low energy band system of 15,15'-cis β-carotene</p>	62
<p>3. Effect of various gas adsorption on the intensity of the weak low energy band system of <u>all-trans</u> vitamin A alcohol</p>	63
<p>4. Effect of various gas adsorption on the intensity of the weak low energy band system of <u>all-trans</u> vitamin A acetate</p>	64
<p>5. Effect of various gas adsorption on the intensity of the weak low energy band system of β-apo-8'-carotenal</p>	65

TABLE	PAGE
6. Effect of various gas adsorption on the intensity of the weak low energy band system of astacene ..	66
7. Absorption bands of <u>all-trans</u> β -carotene (visible band system) ..	69
8. Absorption bands of 15,15'-cis β -carotene (visible band system) ..	70
9. Absorption bands of <u>all-trans</u> Vitamin A alcohol ..	74
10. Absorption bands of <u>all-trans</u> vitamin A acetate ..	75
11. Absorption bands of β -apo-3'-carotenal	78
12. Absorption bands of astacene ..	79
13. Absorption bands of α, ω -di-1-naphthylpolyenes (I_n) ..	116
14. Absorption bands of α, ω -di-2-naphthylpolyenes (I_n') ..	119
15. Absorption bands of anthrylpolyenes (\bar{I}_n)	131

TABLE	PAGE
16.	Observed oscillator strength for the lowest energy absorption band (λ) of naphthylpolyene 136
17.	Observed oscillator strength of absorp- tion bands of anthrylpolyenes .. 141
18.	Charge transfer spectra of vitamin A (alcohol) with various acceptors 164
19.	Absorbance of CT band at $292 \text{ m}\mu$ of vit A alcohol-chloranil complex at various donor and acceptor concentrations 172
20.	Absorbance of CT band at $280 \text{ m}\mu$ of vit A alcohol - Br_2 complex at various donor and acceptor concen- trations 174
21.	Absorbance of CT band at $265 \pm 5 \text{ m}\mu$ of vit A alcohol-ICI complex at various donor and acceptor concentrations 176

TABLE	PAGE
22. Absorbance of OT band at 295 m μ of vit A acetate - Br ₂ complex at various donor and acceptor con- centrations	178
23. Phosphorescence bands of biphenyl guest-carbazole host mixed crystal	192
24. Summary of values of K' , K'_p and $K'K'_p^2$ at different temperatures	218
