

CONTENTS

		PAGES
PREFACE	: Scope and object of the work	1 - 7
CHAPTER I	: Introduction	8 - 62
CHAPTER II	: Experimental section	63 - 68
CHAPTER III	: Apparent and partial molal volumes of some symmetrical tetraalkylammonium bromides in acetonitrile at 298.15, 308.15 and 318.15 K	69 - 80
CHAPTER IV	: Studies on viscosities of some symmetrical tetraalkylammonium bromides in acetonitrile at 288.15, 298.15, 308.15 and 318.15 K	81 - 97
CHAPTER V	: Excess viscosities and excess molar volumes for methanol + acetonitrile mixture at different temperatures	98 - 108
CHAPTER VI	: Apparent molar volumes and partial molar volumes of some symmetrical tetraalkylammonium bromides in methanol + acetonitrile mixtures at 298.15, 308.15 and 318.15 K	109 - 142
CHAPTER VII	: Isentropic compressibilities of some symmetrical tetraalkylammonium bromides in methanol + acetonitrile mixtures	143 - 155
CHAPTER VIII	: Studies on electrical conductances of some symmetrical tetraalkylammonium bromides in methanol + acetonitrile mixture at 298.15 K	156 - 179
CHAPTER IX	: Viscosities of some symmetrical tetraalkyl ammonium salts in methanol and methanol + acetonitrile mixtures at 298.15, 308.15 and 318.15 K	180 - 225
CHAPTER X	: Concluding remarks	226 - 227
