

C O N T E N T S

	Page
ACKNOWLEDGEMENT ..	(i)
PREFACE ..	(iii)
<u>CHAPTER - I</u>	
A SHORT REVIEW OF ARYLAZO-QUINOLINOLS AND THEIR COMPLEXES:	
IA. Introduction ..	1-2
IB. Analytical applications of arylazo quinolinols ..	2-11
IC. Electronic spectral properties	11-17
ID. Biological properties of arylazo quinolinols ..	17-18
Bibliography ..	19-27
<u>CHAPTER - II</u>	
PREPARATION, PROPERTIES AND IR SPECTRA OF ORGANOTIN COMPLEXES OF 5-ARYLAZO-8-QUINOLINOLS:	
IIA. Introduction ..	28-31
IIB. Ligands used in the present study	31-32
IIC. Methods of preparation of organotin complexes	33-45
IID. Analytical data ..	46-48
IIS. IR spectra ..	49-53
IIF. Experimental	
(1) Preparation of the ligands	54-58
(11) Source of organotin compounds used for synthesising the organotin complexes	58

	Page
(iii) Synthesis of organotin complexes	59-73
Bibliography ..	80-82

CHAPTER - III

ABSORPTION SPECTRA AND STRUCTURE OF THE ORGANOTIN COMPLEXES OF 5-ARYLAZO-8-QUINOLINOLS:

IIIA. Introduction ..	83-85
IIIB. Nature of electronic transition in azoxines and its derivatives	85-91
IIIC. Result and Discussion	91-101
IIID. Experimental ..	102
Bibliography ..	103-106

CHAPTER - IV

PREPARATION AND STRUCTURE OF TRANSITION METAL-ORGANOTIN MIXED COMPLEXES OF 5-ARYLAZO-8-QUINOLINOLS:

IVA. Introduction ..	107-109
IVB. Methods of preparation of transition metal-organotin mixed complexes	109-114
IVC. Properties of the organotin-transition metal complexes	
(i) Electronic spectra	115-117
(ii) IR spectra ..	117-119
(iii) Magnetic moments	120-122

	Page
IVD. Experimental ..	123-124
(i) Synthesis of the transition metal complexes	124-129
(ii) Synthesis of transition metal organotin mixed complexes	129-135
Bibliography ..	136-137
