

ACKNOWLEDGEMENTS

The present thesis embodies the results of research carried out by the author at the Department of Chemistry, University of North Bengal, Dist. Darjeeling.

The author takes this opportunity to record his grateful thanks to Prof. H.N. Khastgir, M.Sc., D.Phil., Head of the Department of Chemistry, University of North Bengal, Dist. Darjeeling for his valuable suggestions, guidance and keen interest throughout the research programme.

The author is indebted to Dr. A. Duffield and Dr. L.J. Durham, Department of Chemistry, Stanford University, Stanford, California, U.S.A. for mass spectra, NMR spectra and IR spectra, to Prof. T.R. Govindachari, Director, CIBA Research Centre, Coregaon, Bombay for kindly arranging some of the NMR spectra and IR spectra recorded in the thesis.

The author's thanks are also due to Prof. J.N. Chatterjee, Patna Science College, Patna and to Prof. D.K. Banerjee, Indian Institute of Science, Bangalore for IR spectra of the compounds recorded in the present thesis.

Thanks are also due to Dr. S.K. Sengupta, Research and Development Section, East India Pharmaceutical Works Ltd., Calcutta for optical rotations recorded in the thesis.

The author is grateful to Dr. P. Sengupta, Department of Chemistry, Kalyani University, Nadia for authentic specimens of 2-sitosterol acetate, taraxerone, taraxerol, methyl betulinate, to Prof. (Mrs) A. Chatterjee, Department of Chemistry, University College of Science, Calcutta for authentic specimen of friedelin, to Dr. P.K. Bose, Bose Institute, Calcutta for the gift of myricadiol and myricadiol diacetate and to Prof. T.R. Seshadri, Department of Chemistry, Delhi University, Delhi for kindly arranging to provide an authentic specimen of tetra-O-methyl ellagic acid.

The author is thankful to the East India Pharmaceutical Works Ltd. Calcutta for a fellowship and the authorities of North Bengal University for financial assistances and for extending laboratory facilities. The author is also thankful to Mr. R.C. Sarkar, United Chemicals & Allied Products, Calcutta and to Garden Manager, Odlabari Tea Estate, Jalpaiguri for supplying the plants that were investigated.

Microanalysis were carried out by Dr. A. Bernhardt, Mulheim, Germany to whom the author expresses his grateful thanks.
