

# C O N T E N T S

		Page
PREFACE	: Scope and Object of the Work	I - IX
CHAPTER I	: Introduction, review of earlier works	1 - 61
CHAPTER II	: Thermodynamic Acid Dissociation Constants of the Protonated Form of 2,2'-Bipyridine and 1,10-Phenanthroline in Aqueous Binary Mixtures of 2-Methoxyethanol and 1,2-Dimethoxyethane at 25°C*	62 - 96
CHAPTER III	: Solubility and the Dissociation Constants of Benzoic Acid in ME-Water and DME-Water Mixtures and Free Energies of Transfer of Benzoate Ion**	97 - 119
CHAPTER IV	: Solubilities and Free Energies of Transfer for p-Nitro, p-Chloro and p-Bromo-benzoic Acids in Aqueous Mixtures of 2-Methoxyethanol and 1,2-Dimethoxyethane	120 - 138
CHAPTER V	: Solubilities and Dissociation Constants of o- and m- Substituted Benzoic Acids in Different Mixed Solvents at 25°C	139-163
CHAPTER VI	: Electrolytic Conductance and Dissociation Constant of Picric Acid in ME-Water and DME-Water Mixtures	164-185
CHAPTER VII	: Solubility and Transfer Free Energy of 1:1 Electrolytes from Water to 2-Methoxyethanol and 1,2-Dimethoxyethane	186-210
